

KNOX AUTO CASE IS DISCHARGED

DROVE PITMAN TO SUICIDE

MANY DIVORCES ARE GRANTED

Rescript Filed in Case of Brown vs. O'Donnell et als—This Practically Ends Controversy

Is Charge of Atteaux Defense Against Breen—Great Effort to Clear Defendants in Dynamite Case

Mrs. Louise McLaughlin Married Last Jan. Gets Permission to Resume Maiden Name

In the case of George H. Brown et als vs. James E. O'Donnell et als, pending in the superior court, a rescript was filed June 2, directing that the report be discharged.

This is the case in which Commissioner Brown asked the supreme judicial court to rule upon several questions affecting the purchase of materials and supplies, and which was returned by Chief Justice Arthur P. Rugg to the superior court, no decision, as Mr. Brown had requested, having been made.

This latest phase indicates practically the end of the controversy. The case was brought as the result of the purchase of a fire automobile, the Knox machine being specifically named. The Knox machine is now paid for. Notice of the discharge of the report, ending the case, was received by City Solicitor Hennessy, Clerk Dillingham, clerk of courts for Middlesex county, forwarding the notice to Mr. Hennessy.

BOSTON, June 5.—After introducing several witnesses to corroborate the testimony of the different witnesses yesterday, the defense of Frederick Atteaux in the dynamite conspiracy case rested at 11:30 today.

It is expected that the case will go to the jury as soon as counsel for President William M. Wood of the American Woolen Co. elected to call no witnesses, and the third defendant, Dennis J. Collins, turned state's evidence.

Hatched Dynamite Plot

Among the witnesses for Atteaux were William E. Watts, former chief inspector of the Boston police, and A. A. Corby of Lawrence. Their stories tended to confirm the version of the dynamite affair given by Atteaux, who set up that John J. Breen and Ernest W. Pitman hatched the plot to "plant" dynamite on the premises of the textile strikers at Lawrence. Later the defense claims Breen drove Pitman to suicide by threats of exposure and then used the same tactics in an attempt to blackmail Atteaux and Wood. Collins corroborated Breen in part but did not involve the other two defendants.

Watts testified to an interview with Breen in which the latter told of the damage suits brought against them by those in whose houses dynamite had been "planted," and said what he had done was for the mill and he thought that Atteaux ought to get him \$10,000. On cross examination the witness said he thought Breen was trying to blackmail Atteaux. Joseph Pelletier wanted to know why if he thought Breen was a blackmailer he had not reported the matter to the district attorney's office.

Watts replied that he had not fully made up his mind that his suspicions were justified.

Check Identified

Corby corroborated Atteaux's explanation of what he had done with a part of the money paid Atteaux by the American Woolen Co. for expenses incurred in connection with the Lawrence strike. He identified a check for \$300 as one given him by Atteaux.

No Rebuttal Offered

The government had no rebuttal to offer.

Henry F. Hurliurt, counsel for Wood, requested that the jury be excluded and then asked the court to tell on what issue the case was to go to the jury. The district attorney replied that the indictment was a general charge so that the jury could bring in a verdict either under the general complaint or under any count.

Indictment Reviewed

The indictment was reviewed, count by count, by Judge John C. Crosby who asked the district attorney if all the evidence in the case did not indicate there was no intention on the part of anyone to injure buildings or other property.

Mr. Pelletier said there was no malice but that the possibilities of careless handling of high explosives should be considered. He argued that the six counts amounted to different descriptions of the same alleged illegal act.

(Continued to page eight.)

The jury waived session now held at the court house in Gosham street will have completed its list here by tomorrow afternoon when the session will be closed. There have been tried a large list of cases before this court during the past week or two, and very many divorce suits were decided.

Among the last of the divorce suits tried before Judge Jenney yesterday afternoon was that of Louise Read McLaughlin against John C. McLaughlin, the libellant being granted a decree nisi against her husband on grounds of cruel and abusive treatment. The couple were married at Putnam, Conn., on the 29th day of January of this year. Libellant was granted permission to assume her maiden name, Louise Read. Mr. McLaughlin did not appear.

This morning a decree nisi was granted in the case of Lena B. Fairbanks vs. Lester B. Fairbanks for desertion. This was the last of the divorce cases to be tried before this session.

The next case called was that of Dora Strogoff vs. Peter J. McGauvran et al, an action of contract or tort in which the plaintiff charges that on April 22, 1903, for a consideration, she stored books, furniture and other household articles with the defendant and that the defendant allowed a large part of the property to become damaged, lost or destroyed, to the great damage of the plaintiff. The second count of the declaration was similar to the first while the third count charged the defendant with converting to his own use certain books, furniture and household goods. Answering the defendant filed a general denial of the material allegations brought by the plaintiff. William Hogan represented the defense with Isaac Harris for the plaintiff.

Superior Civil Session

The superior civil session at the court house, presided over by Judge Pratt, is at present occupied with the trial of the case of Lyons vs. Boston Elevated railway in which the plaintiff claims \$25,000 for injuries alleged to have been received through the defective construction of an engine of the company. Among the chief witnesses heard thus far have been Mr. Ernest Lyons, the plaintiff, and a Boston lawyer who examined the engine. There has also been expert testimony and it is said that when the defense opens its case the testimony of the experts will be resorted to in great measure.

DAVID SIDEMAN STRUCK SCHUSTER

Blood Spilled Saved in Handkerchief to be Shown to Judge—His Honor Unmoved

In police court today the case of David Sideman, charged with assault and battery upon Morris Schuster, proved a rather mirth-provoking mix-up. Both complainant and defendant were very strenuous in their testimony and their attorneys were kept busy controlling the fervid emotions of their respective clients. The first witness to take the stand was Schuster. He told the court that he was walking down Chelmsford street, between six and seven o'clock Saturday night when the defendant, who was standing on the curb, without saying aye, yes or no, walked over to him and knocked off his hat, later also putting over a Pelky punch, to his mouth. Upon advice of his counsel, A. S. Goldman, Esq., he exhibited to the court a gory looking handkerchief which he testified he had used to stop the flow of blood from his battered features. Under cross examination by Frank Goldman, Esq., the defendant's representative, he denied that he said anything that could be construed into an offence to the defendant but acknowledged that he did not like to be called "like." His proposed brother-in-law, in other words the brother of the girl to whom Schuster is engaged, was the next witness. He sells newspapers in Merrimack square he said, upon cross examination. His story corroborated that of the complainant. Attorney Frank Goldman tried to make him admit that he was not on the scene when the fracas occurred, but witness said that he was.

The defence denied everything that the prosecution claimed except that they acknowledged the assault. They claimed, however, that Sideman hit Schuster in self defence, that the latter did not take kindly to the defendant "like" and that he announced by his actions that he was going to strike the defendant. After taking all the evidence under consideration and asking both principals in the affair leading questions, Judge Enright announced that he would place the case on file and that the defendant must stand the cost of the trial.

The case of Thomas Maranilla, charged with the larceny of \$4.30 from the local branch of the loomknives union was settled outside of court when the defendant announced to the financial secretary of the union, who was already testifying on the stand, that he would settle for his shortage.

Michael Saur was sent to jail for a period of three months for drunkenness. Joseph M. Akery was given one more chance to reform, getting a suspended sentence to the state farm. George J. Keefe and Francis Maguire were fined \$5 for their second arrest for drunkenness within the year.

Suspected of Theft

James Hourke, the man who was arrested over a week ago for the larceny of several lead pipe connections, pleaded not guilty to the charge when his case was brought up at this morning's session of police court. The case was continued when the defendant was first brought into court in order to give the police an opportunity to bring the owner of the stolen goods to light but the case went on today without Superintendent Welch having been notified about such a theft being committed.

Officer Ganley took the stand and testified to having arrested the defendant on Broadway with the stolen pipe in his possession. Hourke affirmed then, as he did also this morning, that he had found the lead on the First street dump and refused to say anything more. Officer Ganley, knowing the evil reputation of the man and thinking that the circumstances warranted it, immediately "had" him taken to the station.

The pipe in question was on exhibition this morning in the court room. Superintendent Welch was of the opinion that the short, empty leaden tubes were gas meter connections and that the defendant had probably raided some house which is now vacant. This theory explains why the owner has made no notification to the police department. The defendant returned very unsatisfactory answers to Judge Enright's queries when the court tried to get at the bottom facts in the case. Hourke was then sentenced before for exactly the same kind of a theft on Paige street. He was given a four months' sentence to jail.

BILLINGS STREET SCHOOL

Hearing on Sanitary Conditions Existing There

The lands and buildings department will improve the sanitary conditions at the Billings street school. This information was given out by Commissioner Cummings this afternoon. Mr. Cummings has made arrangements to meet people in Centralville this evening who have spoken to him about the condition of the school and he will listen to whatever suggestions they have to offer.

Mr. Cummings says that the lands and buildings department spent \$100 last year in an endeavor to correct certain evils in connection with the sanitary conditions at the Billings street school and he further states that at this particular time of the year the conditions at that school seem to be worse than at any other time in the year. The odors arising and circulating through the building are very offensive especially when a south wind is blowing.

School Committee on the Job

On the 24th day of last month Abel R. Campbell, chairman of the committee on school houses and hygiene, addressed letters to all of the school physicians admonishing them to make a careful inspection of the closets used by the children. The following is a copy of Mr. Campbell's letter to the doctors.

Lowell, Mass., May 22, 1913.

Dear Doctor: If you have not already in your visits to the schools in your immediate charge, made a careful inspection of the closets used by the children in those schools, will you kindly do so at your earliest convenience.

It would be of much interest to me to know your opinion concerning the respective merits of "dry closet" systems and water-flushed systems, and I would be glad to have your opinion in writing at an early day, not later I may suggest, than June 10, 1913.

Very truly yours,

Abel R. Campbell,

Chairman Committee on School Houses and Hygiene.

About all of the school physicians have reported to Mr. Campbell, and they are unanimous in their disapproval of the dry closets.

To the writer, Mr. Campbell said: "I have had several interviews with Commissioner Cummings relative to dry closets, particularly in the case of the High school, and I believe that he intends to install the flush system there this summer during the vacation period. The school janitors, under the careful supervision of William F. Thornton, are doing all that can be done in the interest of clean schools and school sanitation. The janitors are all hard working men and this also applies to the school physicians, who, I think, are the best in the state."

TARIFF BILL TO TEST

Pres. Wilson's Position Grows Stronger

WASHINGTON, June 5.—President Wilson's position, in support of free wool and free sugar seems to grow stronger as the day of the senate caucus draws nearer. The tariff bill will be put to the acid test there and party leaders now feel that the president's stand will be supported almost unanimously by the party with the exception of two or three senators being released from the caucus pledge. There is an increasing possibility that not more than two democratic senators will oppose the bill to the end.

Senator After Senator on the majority side has signified his intention to abide by the decision of the caucus by testimony before the lobby investigating committee.

Free shoes, free lumber, free agricultural products, free wool and free sugar as provided in the Underwood bill are to stand, the administration leaders declare and the probability of any amendments to these items on the floor of the senate is lessening.

72,000 Cigars Seized

PROVIDENCE, R. I., June 5.—Enough cigars to stock a good sized store were seized in the Italian section here and in North today by federal inspectors because they did not bear revenue stamps. The inspectors from this city and Boston seized 72,000.

Appointed U. S. Attorney

WASHINGTON, June 5.—President Wilson today finally determined upon the appointment of State Senator Davis of Salem, N. J., to be United States attorney for the New Jersey district. Senator Davis is a democratic leader of the New Jersey senate introduced the noted "seven sisters" anti-trust bills backed by President Wilson and worked for the legislative policies of Mr. Wilson when he was governor.

UNKNOWN MAN BURIED

He Was Killed by Train Yesterday

This afternoon the remains of the unfortunate man who was killed by a train in South Lowell yesterday lay at the undertaking parlors of George W. Healey still unidentified, and upon the advice of Medical Examiner Meigs, Mr. Healey decided to make interment this afternoon. Consequently the body was laid to rest in Potter's field in the Edison cemetery. Medical Examiner Meigs and Undertaker Healey were both agreed that the man was so battered and disfigured that his closest relatives could not identify him, and so they decided it was useless to delay burial any longer. Comparatively few people visited the undertaking establishment to view the remains.

JAPAN'S LATEST WORD

Against Alien Land Law

Before Wilson

WASHINGTON, June 5.—Japan's latest word in her protest against the California anti-alien land law was before President Wilson today waiting to be presented to the cabinet at its regular semi-weekly meeting tomorrow. It is more than probable that the cabinet will consider the rejoinder only in a preliminary way, as Secretary Bryan expects to leave the city soon to attend a banquet at Pittsburgh to attend a banquet to George W. Guthrie, the newly appointed ambassador to Japan. Viscount Chinda, Japan's ambassador, also will be a guest at the function but will go on an earlier train.

The next step in the negotiations is a reply to Japan's rejoinder. This is expected to take up the Tokio government's reiterated contention that the Webb law is in contravention of the treaty of 1911 derogatory to the equal treatment which Japan expects under international law and therefore a racial discrimination. The whole tone of the Japanese note, inviting further negotiations upon the controversial points impressed official Washington more than favorably.

Shusters tomorrow night, North Billerica.

ADDITIONAL TAX ASSESSMENTS

To Provide Money for Lowell Textile School—\$7000 for Barn at the Chelmsford St. Hospital

At the regular meeting of the municipal council held this forenoon in the old council chamber at city hall, the matter of instructing the assessors of taxes to make additional assessments this year in order to provide money for the Lowell textile school, was taken up and an order to that effect was adopted. The trustees of the school ask for \$7000 this year which is \$1000 more than the school asked for or received last year. The reason for asking more money is because of the increase in the number of pupils.

The council voted to borrow \$7000 for the erection of a new barn at the Chelmsford street hospital and the pairing bridges went over to the next meeting. The matter of appropriating money for Lucy Larcum park and the Greenhalge school playground will be taken up at the next meeting.

Mayor O'Donnell called to order at 11:30 o'clock and read the resignation of James E. Hill, collector of samples of milk, the matter having been referred to the mayor at a previous meeting.

Mr. Hill asked to be retired on the pension list and the mayor recommended that the petition be granted.

In order to retire Mr. Hill it was

French Team Defeated

WEISBADEN, Germany, June 5.—The German team beat the French team in the elimination contest for the Dwight F. Davis international tennis trophy, which has been in progress here for three days.

NOX'S

## SEN. FISHER PRESIDED

At Session of Senate—R.  
R. Bill to 3rd Reading

BOSTON, June 5.—When the senate session opened Senator Fisher of Westford presided in the absence of President Greenwood.

These reports of committees were read:  
Municipal Finance—Ought to pass in new draft, a bill to authorize the Boston street commissioners to widen Washington street from Lagrange street in West Roxbury to Forest Hills square.

Ways and Means: Reference to next general court of the public opinion bill of the American Federation of Labor.

On motion of Senator Stearns of Cambridge the rule was suspended and the senate proceeded in the adoption of the house amendment adding the referendum to the Cambridge school apportionment bill.

Gov. Foss' veto of the bill to raise the pay of the state house firemen was read and on motion of Senator Mack of North Adams action upon the same was deferred to next session.

Senator Stearns of Cambridge withdrew his amendment to the bill to establish tolerances in weight in the sale of commodities, and the bill was ordered to a third reading on a voice vote which was not disputed.

Senator Horgan attacked the bill to incorporate the Saugus River Land company, calling attention to a defect in it.

Senator Bagley said the bill had been declared to be in proper form, but on his motion further consideration went over to the next session.

In the senate yesterday afternoon the railroad control bill, creating the new commission on transportation, was ordered to a third reading, 19 to 2, in the practice form in which the house sent it along. The two senators voting against it were Hersey of Hingham (who wanted ship companies exempted) and Hallowell of Lawrence (who wanted the financial sections, 15 and 16, eliminated from the bill).

The three amendments recommended by the senate ways and means committee were easily defeated.

The overwhelming vote in favor of the bill in the house and senate indicates that it would not be a difficult thing to have the measure passed over the governor's veto, if his excellency should return the measure without his approval.

As was expected, the Boston fire hazard bill was rejected. The senate first adopted the several amendments heretofore offered by Senators Allen and Montague and then rejected the measure on a voice vote.

The monthly ticket bill was rejected, 5 to 8, and there was no roll call. The expected vote on the western railways bill didn't materialize. It was passed to engrossment, 15 to 3, on a rising vote.

The upper branch wasted no time on the dentistry reorganization bill, which embodied the Michigan plan, which certain persons wanted to "try on" Massachusetts. The bill was referred to the next general court and without discussion.

The house reconsidered its vote of Tuesday to reorganize the state board of health and then killed the bill by vote of 109 to 107.

## \$40,000 In Attachments

BOSTON, June 5.—Three attachments aggregating \$40,000 have been filed against Shigeo and Sadajiro Yamahata, members of the firm of Yamahata & Co., who are in Japanese goods at 456 Boylston street, in the Suffolk county registry of deeds. The actions come as an aftermath of the litigation which has been carried on in the Suffolk county courts for several months in which the remarkable collection of Japanese idols, gods and relics owned by Joseph M. Wade, late of Columbia road, Lorchester, was the bone of contention.

Doctor Tells How to  
Shed Bad Complexion

We cannot restore degenerated facial tissue any more than we can restore a lost limb. It is useless to attempt to convert a worn-out complexion into a new one. The rational procedure is to remove the complexion instead of remove the degenerated tissue. Not by surgical means, however, as the ordinary cosmetic is too thin, too tender, to withstand immediate exposure. Applying ordinary mercurized wax will gradually absorb the offending cuticle. By degrees, a new, youthful skin appears, a skin that is healthy and beautiful as a rose petal.

No lady need hesitate to try this. Secure an ounce of mercurized wax of the druggist. Spread on a thin layer before retiring, removing this in the morning with soap and water. In from one to two weeks the complexion is completely transformed.

An approved treatment for wrinkles is provided by dissolving an ounce of powdered salicylic acid in a half-pint of water. Rubbing the face in the solution, brings prompt and remarkable results.—Dr. Rupert Mackenzie in Popular Medicine.

Light weight garments easily wrinkle and light-colored fabrics quickly soil. But here's where we come in. Just send your clothes to the Dillon Dye-Works and we will put them in perfect condition. Free from wrinkles and soil. The cost is small, but the effect is great!

If you haven't, try us once!

## MRS. P. NOE BRUNELLE INJURED AT BALL GAME

Funeral Services at St. Boston Man Awarded  
Joseph's Church Verdict of \$321

The remains of Mrs. Pierre Noe Brunelle were tenderly laid to rest in the Catholic cemetery this morning after impressive services at St. Joseph's church. The funeral cortege left the home of deceased, 57 Pond street, at 8:30 o'clock and wended its way to the church, where at 9 o'clock a solemn high mass of requiem was celebrated by the rector of the church, Rev. Charles F. O'Malley. He was assisted by Rev. Aloysius O'Malley, O. M. I., as deacon, and Rev. L. A. Noll, O. M. I., as sub-deacon. There was a large congregation present, showing the esteem in which deceased was held. Among those present from out of town were: Mr. Joseph Brunelle of Manchester, N. H.; Mr. Arthur Brunelle of Danville, N. H.; Mr. and Mrs. Severin Boisvert of Quebec, Mrs. Cushman of Winthrop, Mass., and Mrs. Emma Plante of North Dakota. Seated in the sanctuary were Rev. James J. McCarthy, O. M. I., and Rev. Bro. J. McCarthy, O. M. I., both of Tenkies.

The choir, which was augmented for the occasion by members of various church choirs, rendered Perreault's harmonized mass under the direction of Telephone Molo, the solos being sustained by Ernest J. Dupont, Dr. George E. Caisse, Homer L. P. Turcotte, Arthur Giroux and E. J. Laroche. At the offertory David Martin sang Leybach's "Pie Jesu," and at the communion John J. Dalton rendered Rosow's "O Meritum Passionis." While the body was being borne from the church the choir rendered "De Profundis," the solos being sustained by Edward Shea, Mrs. Joseph A. Bernard presiding at the organ.

The bearers were Stephen Rochette, Joseph Routhier, Hubert Turcotte, Joseph Brunelle, Joseph Harvey, Joseph Champagne and J. B. Richard.

Among the beautiful floral offerings, which literally filled a barouche, were large pieces sent by the following: Husband and children, Mrs. Emma Plante, Dr. and Mrs. Pierre Brunelle, Miss Melvina Brunelle, Miss Elodie Brunelle, Miss Grace Knowles, James Cahill, Donat Brunelle, William Liston, Charles Curry, Edward Cawley, Jr., John Downey, Mr. and Mrs. Charles Gendreau, Joseph Doyle, William H. Potter, D'Amour family, Lowell Drug Exchange, J. Edward Burns and sisters, Routhier & Delisle, Lewis Keith, Francis Woodcock, Katherine McCartin, Louise Cull, Anna McCarron, Mary Murphy, Rose Conley, Alice Dacey, Stephen Rochette, Royce, John McManus, Mrs. Vincent and Mrs. McDonald.

Burial took place in the family lot in St. Joseph's cemetery, where the communal prayers were read at the grave by Rev. Henri Watelle, O. M. I., pastor. Funeral arrangements were in charge of Undertaker Amedee Archaubault.

Trisecting an Angle

BOSTON, June 5.—Theories accepted by mathematicians for centuries will be relegated to the realm of things to be forgotten if experts find that Sydney A. Gross, a sophomore in the Central High school of Philadelphia, is correct in asserting that he has discovered a method of trisecting an angle less than a right angle. Gross, who is 16 years old, has invented an instrument which, he says, will divide any angle less than a right angle into any odd number of equal parts.

## NEW I. W. W. CIRCULAR

Stirs the Milford Mail  
Authorities

MILFORD, June 5.—There is every probability that the federal authorities will be asked to take action as to one phase of the Draper strike here on account of a circular deposited here yesterday in the Milford postoffice which was brought to the knowledge of the state police. Capt. W. H. Proctor has charge of an investigation of the matter.

The circular is a list of 100 workers who are alleged to have deserted the strikers' ranks, and their names and addresses are published therein, with a statement of the Hopedale strike. It is being sent, if practicable, to every I. W. W. local in the United States with sinister recommendation. The intent of the senders is very evident. The state police are naturally very reticent as to their plans or information.

A new line of aggressiveness was adopted yesterday morning by the I. W. W. management of the Draper strike. A circular was distributed among strike sympathizers in hundreds yesterday, and some of the phrases used are regarded here as extreme enough to alarm business men. The circular bears the seal of the I. W. W. and is printed in English and Italian, addressed "To the Laborers." Its first sentence is:

"The violence, the abuse is at the order of the day. The law is violated, the law that permits us to talk with strike breakers has been trampled on."

Other paragraphs are:

"Laborers! At the repetition of these facts, at the insults that the authorities, the press, and that the Drapers every day throw to us, to you, now it is the duty, that is, to know how to demonstrate that we are not disposed to support their insults, but we intend to make them swallow them, preparing even from today for a general strike and with refusing to pay any kind of tax to the community."

"This must be from today our standard, so that we may give our brother strikers more freedom, and until they have understood that Italians, Poles and Armenians intend to be respected."

"Comrades! The moment is serious, the solidarity of all of us is necessary in order that the curse sent by his dead brother may be united to the curse of Emilio Bacchicchi's children, and the strength complete, of all of us, with a general strike."

"Comrades! Let us be prepared, let us agitate and loudly cry that we will pay no more taxes and that at one sign from the committee we will all leave the shops, because the cause of Hopedale is the cause of us all."

"Saluting you with a cry of triumph for the general strike."

It is signed "The Committee for the general strike and for the refusal of taxes."

## SAVES BOY IN WATER

Lad of 12 Rescues His  
Chum of 14

BOSTON, June 5.—William Sheridan, aged 12, son of Mr. and Mrs. Robert Sheridan, Stoneham, swam 300 yards across Lake pond yesterday in that town, and saved Harold LeBrun, two years older, from drowning.

Sheridan, with several comrades, was swimming at the pond when he heard the cries of LeBrun, who had been seized with a cramp. He immediately started across the pond, and got to the boy, who is much heavier than he, just in time to save him from sinking.

The bewildered swimmer attempted to hold Sheridan and hinder his work of rescue, but the 12-year-old life-saver clutched from behind and held him above water until George Hultgren, 14, arrived and assisted the two exhausted boys from the pond.

LeBrun was in a serious condition last night, but it is expected that he will soon recover.

## PHYSICIAN IS ARRESTED

Grand Jury Issues Capias  
After Death

WAREHAM, June 5.—Following an investigation into the death two months ago of Guy H. Craig, aged 25 years, Dr. J. A. Eldridge was arrested last night by Deputy Sheriff J. W. Hurley on a charge of manslaughter.

Grand Jury Order

The arrest was made on a grand jury capias issued in Plymouth yesterday. Craig, who was a street railway employee, died suddenly. It is alleged, after receiving treatment from Dr. Eldridge. Owing to circumstances surrounding the case, which puzzled the authorities, an investigation was begun by Plymouth county officials.

AS BAD FOR TEACHERS

Governor Foss Vetoes Tenure of Office Bill on Ground That It Would Promote Inefficiency

BOSTON, June 5.—Pronouncing the measure bad for the best interests of teachers and not good for the schools, Governor Foss yesterday vetoed the bill providing that after five years' service no teacher in any public school in Massachusetts shall be removed until charges have been preferred and a hearing given.

"The efficiency of our teaching force is maintained and must be maintained by a sort of weeding-out process, whereby teachers whose usefulness has diminished may be promptly eliminated," said he in his message to the legislature.

"This bill will make it practically impossible for a school committee to discharge a teacher who has completed five years of service. Inasmuch as a teacher under this bill cannot be discharged except on certain rigidly defined lines, it is obvious that the gradual letting down of his efficiency will not lead to his dismissal, because this sort of personal deterioration is insidious and cannot be expressed in technical charges supported by affidavits, such as would hold in a case of law."

CABOT STREET SCHOOL

Fete Day at Planting a School Garden

Interesting exercises were held in the yard of the Cabot St. school yesterday afternoon and an address was given

by Dr. Bagley sub-committee man of the school. The Cabot street school will soon have an attractive school garden

instead of a yard of clinders, stones and sand. Since the arrival of a load of loam and a set of garden tools the boys have worked hard and willingly

and yesterday afternoon the entire school had a fete in the new school garden and every child planted a seed.

Especially were the seeds appreciated as they were given by the late Miss Seales. The program of the day included the planting of seeds and an entertainment by the children. The children were trained by Miss Mary

Whelley and her assistants, Miss Eugenie Hogan and Miss Mary Murphy.

The program was as follows:

Song, Third Grade: "A Little Plant," Hector Wainville; song, "Flowers," First Grade; song, Second Grade; Little Brown Brother; Yvonne Morin; "Planting of Seeds," school; song and dance, girls; "Our Colors," school; Salute to the Flag; America.

The appearance of the school yard is much improved as a result of the garden arrangement and all the children are deeply interested in the future of the flowers planted with so much ceremony.

## ESTABLISH ONE-CENT POSTAGE

New Postmaster General  
Hopes to be Successful

Albert S. Burleson, the new postmaster-general, faces many intricate problems in connection with the operation of the postoffice system throughout the country.

According to those well posted in Washington, he comes well qualified for this position. Postmaster-General Burleson is a native of Texas, and was educated at Agricultural and Mechanical College, Baylor University, and University of Texas. He was admitted to the bar in 1884; was assistant city attorney at Austin, Texas, from 1886 to 1890; attorney of the twenty-sixth judicial district from 1892 to 1896, and was a member of the 56th, 57th, 58th, 59th, 60th, 61st and 62nd congresses. He has been a deep student of postal affairs for many years.

ALBERT S. BURLESON

One of the important matters which the postmaster-general will be called upon to deal with will be the establishing of one-cent letter postage. He has indicated to representatives of the National One Cent Letter Postage association that he heartily favors one-cent letter postage, and hopes to bring it about just as soon as a satisfactory adjustment of affairs can be had.

He strongly favors efficient service in the department; adequate compensation for postoffice employees and an equalization of postal rates. He hopes that one-cent letter postage is not far distant and that it may become a monument to the administrative ability of the department of which he is head.

## MURDER OF HUSBAND

Chicago Woman is Held by Police

CHICAGO, June 5.—Mrs. Louise Van Keuren was held to the grand jury on a charge of murder in connection with the fatal shooting of her husband, John B. Van Keuren, at the doorway of her apartment early yesterday. George Penrose, who admitted he had visited Mrs. Van Keuren's home shortly before the shooting, was held as accessory.

Mrs. Van Keuren told the coroner's jury she had fired her revolver when someone broke the glass window over the door at the entrance of her home. She said she believed it was a burglar. The bullet penetrated her husband's brain.

Private detectives who had been in the employment of Van Keuren testified that Penrose, a jeweler, had gone to Mrs. Van Keuren's home with her Tuesday night after closing his store. The detectives then telephoned Van Keuren.

Harry Van Keuren, brother of the dead man, at whose home he has been living, testified that his brother had left home after receiving a message from the detectives.

## STRAWBERRIES AND FUN

The crowd had jolly time at Kirk Street Church last evening—Program Excellent

The vestry of the Kirk street church was the scene of a very pleasant gathering last evening. A strawberry supper was served by the ladies of the church and there was a large attendance. Following the supper there was an entertainment by the kitchen orchestra. A dozen girls and one "black-

## Health and Beauty Helps

BY MRS. MAE MARTYN

Clark: I know parrotis will greatly reduce your weight, and when this is done you will feel much better and healthier. To prepare for treatment, get from your druggist 4 ounces parrotis and dissolve in 1½ pint hot water, then take a tablespoonful at meal time. This acts gradually and gently and safely reduces weight without resorting to violent exercise or dieting. This treatment is far superior to any "punch" fat-reducer for the reason that the graceful lines of the figure are regained and the flesh and skin are left firm and smooth.

Alma: Beautiful eyebrows and lashes will add greatly to the expression of your eyes. Rubbing pyroxin on eyebrows will make them grow thick and beautiful, and frequent applications of pyroxin at last remove wither and forefinger will cause them to come in long and curly. Use care and don't get any pyroxin where hair is not wanted.

Annie: This is the only safe, certain hair-remover. Mix into a paste enough gelatine and water to cover fairly surface, apply and in 2 or 3 minutes rub off, cleanse the skin and the hairs will have vanished. Rarely is the second application necessary to remove even a stubborn growth.

Benevise: You can easily and quickly cleanse your hair and scalp with canthrox, and the shampoo is so refreshing and invigorating that you will never again use or permit the use of soap or other messy, harmful mixtures for this purpose. Wash your hair with canthrox in a cup hot water and your shampoo is ready. After rinsing, the hair will dry very quickly and take on rich, even color and beautiful gloss. Canthrox is especially nice for hot weather shampoo, because it stimulates and invigorates the scalp tissues and makes the head feel so exhilarated.

Aurice: Yes, that old-fashioned karo-tone will do you a great amount of good. I am sure. Here is the recipe. To prepare, add 1 ounce karo-tone to 1 pint alcohol (whiskey should not be used), then by careful sugar and hot water to make a thick cream. Take a tablespoonful before each meal and you will be surprised how quickly your strength and appetite return. The karo-tone tonic is fine for any kind of liver trouble and will clear the skin of sallowness, blotches, pimples and other blemishes.

or complexion faults, as well as make you weigh exactly what you should.

Minnie: You should use a cryotes eye-tonic as it is very soothing and restful to tired, aching eye-muscles. To prepare for treatment, dissolve 1 ounce cryotes in 1 pint clear water and 2 or 3 drops of this should be put in the bathhouse eye until a cure is effected. This cryotes eye-tonic is strengthening to weak, watery eyes and gives to them a delightful sparkle and youthful expression. With the aid of this cryotes eye-tonic it is frequently possible to discard glasses.

Louise: Nature exacts heavy tolls when her laws are violated. Your skin has been abused by powder. An ordinary spumax lotion, made by dissolving 4 ounces spumax in 1½ pint water, will remove all the powder which has settled on your face. This lotion is far superior to powder when on and seems part of the skin, and its use will give a most beautiful and velvety smoothness to any complexion. I can highly recommend the spumax lotion for clearing the skin of all complexion blemishes and bringing back the healthy glow of youth to the aged, weather-beaten or powder-ridden skin.

Jennie: No, quinine hair-tonic cannot be the most beneficial remedy of which I know for all hair and scalp troubles, and when it is made up according to my simple directions it is better than any hair-tonic ever used. To prepare, just add 1 ounce quinine to 1½ pint alcohol, then pour in 1½ pint water. The inexpensive tonic stops the irritation almost instantly and to use will banish dandruff and make your scalp healthy. This beautiful growth of long silken hair will follow.

Annie: Make your own greaseless cream-jelly wrinkle-remover at little cost by pouring 1 teaspoonful glycerine into 1½ pint cold water, then adding 1 ounce ammonia. Let dissolve thoroughly before using, apply thickly and leave on night. The glycerine will disappear. This is splendid for correcting every facial complexion blemish, it gives natural beauty and I have found that certain results follow when this ammonia cream-jelly is used to banish wrinkles and round out hollows.

## He Takes a Swim Too

## 35 STRIKERS ON TRIAL

Charged With Unlawful Assemblage

PATERSON, N. J., June 5.—Hannah Silverman, described as a leader among Paterson's idle silk workers, was the chief figure of interest in court yesterday when 35 strikers and sympathizers were placed on trial, charged with unlawful assemblage. The defendants were picked about a silk mill on April 25 and refused to move when ordered to do so by the police, according to the indictment. The police were backed by 100 to 200 pickets and broughs Hannah Silverman to appeal to the mob for order. Mrs. Hester Pims testified as first witness for the prosecution. "They were all men but the Silverman girl," said witness. "She was leading them. Sergeant Halstead went up to her and begged her to tell her comrades to disperse. She laughed at him."

The prosecution rested its case after calling half a dozen police officers. Counsel for the defense asked for dismissal of all the indictments, citing a court decision during an Ohio strike to the effect that unlawful assemblage meant the gathering of three or more persons having a fixed

purpose. Judge Klenert denied the motion to dismiss, declaring it was for the jury to determine the purpose of the gathering.

Hannah Silverman was called as first witness for the defense. She is 17 years old and the only woman among the prisoners. She testified she was a picket on the day of her arrest, and asked the throng to be orderly but no attention was paid to her words. Later she was standing to one side, she said, when a policeman took hold of her, saying, "It's about time you were arrested." She testified she was orderly and that her arrest was unwarranted.

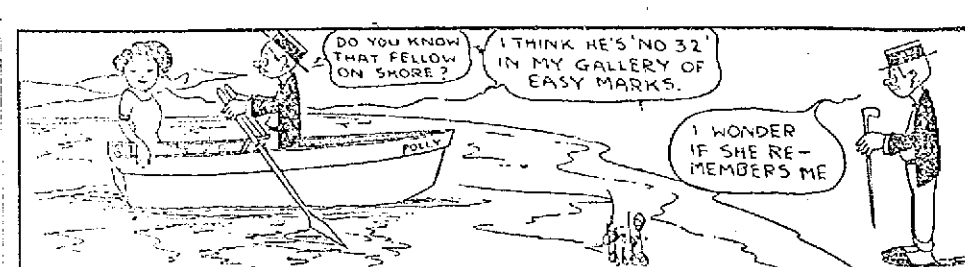

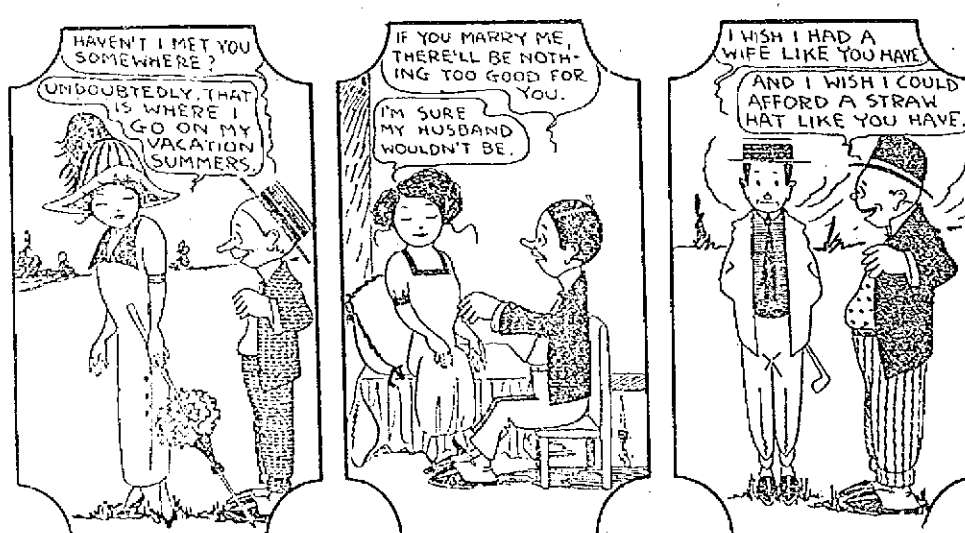

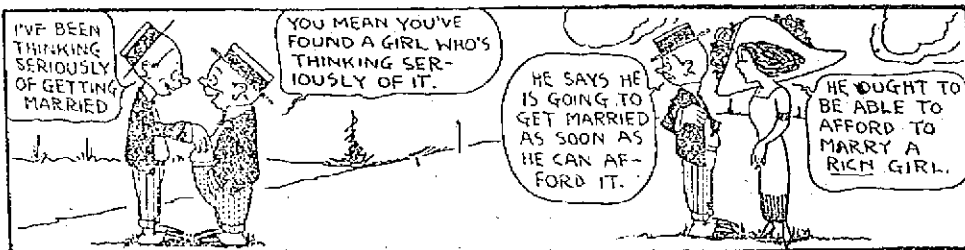

Four other defendants were called before adjournment was taken until today. Each of the prisoners is expected to testify, the defense indicated.

## Husband Gets \$1

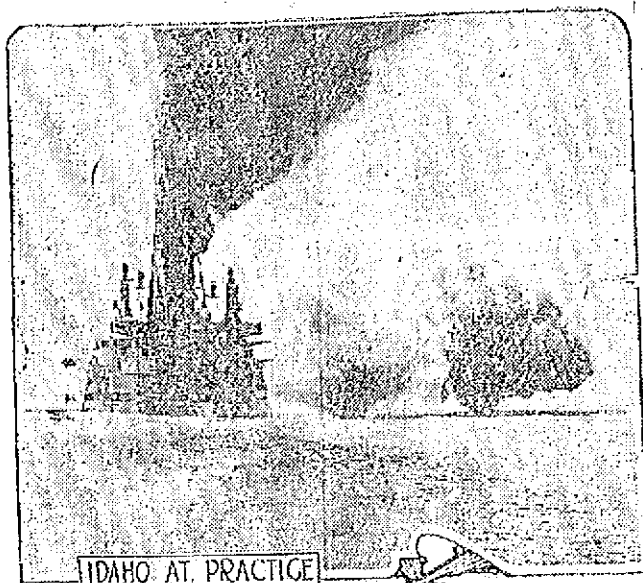

BOSTON, June 5.—One of the most peculiar wills ever allowed in the Norfolk probate court in Dedham was that of Mrs. Martha H. Loring of Hallowbrook, who cuts her husband off with a solitary dollar. The clause in the will reads, in part, as follows: "I give and bequeath to my husband, Bradford R. Loring, who deserted me more than seven years since and has failed to support me, the sum of \$1 in lieu of tenancy by the courtesy or otherwise in my property, which was acquired since the desertion of aforesaid."

If you want help at home or in your business, try The Sun "Want" column.

## A LITTLE NONSENSE

## IDAHO'S GUNS ROAR ACCURATELY IN TRIALS FOR CRACK SHOOTING

WASHINGTON, June 5.—It is like Huff, ordnance officer. The United States navy ranks very high in gunnery. Indeed many of its gunners are considered the best in the world. In the long range day firing the cruiser Maryland leads, with the Rhode Island, Virginia, New Hampshire and Michigan standing next in the order named.

## TRANSFER PROTECTIVE MAN CUT HIS THROAT

Commissioner Barrett Body of Charles Wilder May Change Plans Found at Billerica

Will Commissioner Barrett, who has charge of the fire department, transfer the auto protective from Warren street to the central fire station in Palmer and Middle streets? This is a pertinent question and while Mr. Barrett has said that the transfer would be made in order to make room in Warren street for the fire alarm system, yet he may change his mind.

The auto protective is undergoing repairs in Springfield at the present time and the protective crew are scattered about in different fire houses. It is understood that Mr. Barrett had completed arrangements for the transfer of the protective, but he has received a petition within the last few days that may cause him to change his plans.

The petition is headed by the Appleton bank and bears the signatures of all the merchants and property owners in the vicinity of Warren street. The petitioners pray that the protective be allowed to remain in Warren street. The Middlesex company is also very desirous of having fire apparatus retained in Warren street and declare that a clause, providing for the retention of fire apparatus in that street is incorporated in the original agreement allowing the fire department a position there.

DISTRICT CHIEF'S AUTO On Street Again After Being Repaired by Members of the Central Fire Station.

The automobile of District Chief Sullivan is on the street again after being repaired at the Central fire station. One of the features of the local fire department is the repair shop on the top flight of the Central station. When District Chief Sullivan's machine was reported out of order it was sent to the above station and the broken part, which was the differential gear, was taken from the machine and brought to the shop where it was repaired as neatly as could be done at any garage. All ordinary repair work connected with the fire department is done there and at present they are busy vulcanizing several tires that belong to the protective that is stationed on Warren street.

A man named Charles Wilder, who for some time has been living at a camp near Pinehurst park, which is situated between Billerica and Burlington, took his life Tuesday night by cutting his throat with a knife. Mr. Wilder was about sixty years old and was formerly an expressman but recently has done no work at all. It is understood that he had made a deal with one John Green to trade houses and as the deal had been completed Green on going to take possession of his property found the man lying in a pool of blood on the floor of his camp. Green immediately notified the man's family, who live in Somerville. Dr. Moley examined the body of the man and signed the death certificate as suicide. No reason for the act could be given by the family or friends of the man.

## LOS ANGELES ELECTION

Judge Prose Leads the Mayoralty Fight

LOS ANGELES, Cal., June 4.—Official returns from all but eight precincts today confirmed the election of Police Judge P. Prose, Independent, as mayor of the city over City Attorney John W. Shank, municipal party candidate by a majority of 7000 in yesterday's election, marking the overthrow of the reform organizations which have been in power for some years.

District Chief's Narrow Escape

District Chief Crowley of the fire department had a narrow escape while responding to a fire alarm yesterday forenoon. While passing city hall in Merrimack street the big Robinson machine came down behind him and Mr. Crowley's machine swung to the right directly in front of the big machine. In order to get out of the way Mr. Crowley was obliged to describe a semi-circle and his machine came within an ace of turning turtle.

MEET ME AT PAGE'S RESTAURANT

## MANY JUNE WEDDINGS

Took Place in This City  
Yesterday

In the rectory of the church of the Sacred Heart yesterday afternoon Miss Mary J. Fay, only daughter of Mr. and Mrs. Frank Fay of 81 London street, was married to Mr. John J. Begley, a prominent Ray State railway man. The ceremony was performed by Rev. Felix McCarthy, a cousin of the bride, who came from his parish in Omaha, Neb., to marry Miss Fay. The bride was assisted by Mrs. Mary Foley Leary, another cousin, who now lives in Springfield, while the best man was Mr. Timothy Begley, a brother of the bridegroom.

Attired in a costly white duchess satin embroidered net gown with crystal trimmings, wearing a handsome white picture hat and carrying a magnificent cluster of bride's roses, Miss Fay looked charming as she and the rest of the party left the rectory for her new home. Mrs. Leary's gown was a blue messaline with overdrapes of Irish point lace. She wore a white picture hat and carried a bouquet of red roses.

A wedding dinner was served at the home of the bride, where in the tastefully decorated dining and music rooms the young couple received their friends. After the dinner the gathering was entertained with music, song and story until a late hour. The entertainment was provided by some of Lowell's most talented artists. Among those present were many friends of the bride and groom from Lawrence, Springfield and Boston.

Mrs. Begley's gift to her bride was a gold watch, while Mr. Begley presented the best man with a diamond ring, to serve as a happy reminder of the occasion. So numerous and costly were the presents which the young couple received that these will completely furnish their new home, which is located at 81 London street. The bride's parents set apart the upper section of their beautiful home for the young couple, and the six rooms which compose the apartment are elaborately appointed and furnished.

Mr. and Mrs. Begley left for New York during the evening, at which city they will stop for a time, later going to Washington. They will return to Lowell in about a month.

## SMITH—CORNFIELD

Mr. Henry J. Smith and Miss Margaret M. Cornfield, two well known young people of this city were united in marriage yesterday afternoon at half past four o'clock at St. Patrick's rectory by Rev. Joseph A. Curtin. The bride was attended by her sister, Miss Christina Cornfield and the best man was Mr. Matthew H. Foley. The bride was charmingly attired in a gown of white chiffon over white satin and carried bride's roses. The bridegroom wore blue chiton trimmed with shadow lace, and she, too, carried roses. The gift of the bride to the bridegroom was a gold pendant and the groom presented a gold cuff links to the best man.

Following the ceremony a wedding supper was served at the home of the bride and a musical concert was furnished by Clark's orchestra. The young couple were the recipients of numerous beautiful wedding gifts from relatives and a large host of friends. They left on a honeymoon trip and will visit Providence, R. I. and New York City, returning about July 1 when they will be at home to friends. The ushers at the wedding were Raymond Lynch and Daniel Shea. There were present a number of out of town guests.

## DECATUR—DRAPER

Mr. Nathaniel J. Decatur, Jr., and Miss Ella M. Draper were married last night, the ceremony being performed at the home of the bride's parents, Mr. and Mrs. Arthur A. Draper, 108 A street, the officiating clergyman being Rev. Mr. Trites of the Chelmsford Street Baptist church. The young couple was attended by Miss Louise Best and Mr. Herbert Draper. At the close of the ceremony a reception was held, with Miss Gladys Storm at the piano.

The refreshments were in charge of the Misses Winifred Gruber, Mel Lang and Iva Beardsley, while the

ushers were Daniel Hinckley and Lewis Duncan.

Among the out-of-town guests present were Mr. Hiram Decatur of Haverhill; Mr. and Mrs. B. J. Decatur and son, of Westford; Mrs. William Walker and daughter, of Northampton; Mr. and Mrs. Bert Williams of Boston; Mr. and Mrs. Draper and son of Bradford; Mrs. Emma Spalding of North Adams; Mrs. Crossman and daughter, of Boston; and Mr. Joshua Decatur of Chelmsford.

## MCNIERNEY—FITZGERALD

The marriage of Patrick McNIerney and Miss Margaret Fitzgerald took place last night at St. Michael's rectory, Rev. Francis T. Mullin officiating. The witnesses were Miss Mary Fitzgerald and James Quinley.

## CARROLL—SMITH

Mr. John Carroll and Miss Mary Smith were united in marriage yesterday afternoon, the ceremony being performed at the Immaculate Conception rectory by Rev. Lawrence Elphie, O. M. I. Miss Mary McManis was the bridesmaid, while the best man was James Carroll.

## BROWN—KENFIELD

Harrison G. Brown, formerly of this city, and Miss Hazel L. Kenfield of Worcester were married at the latter place. The happy couple are now camping at Baptist pond.

## HOVEY—MUNN

Mr. Phillip Rogers Hovey, who is engaged in the real estate business in Boston, but whose home is in this city, and Miss Gertrude Stanwood Munn, daughter of Mr. and Mrs. Francis Dwight Munn, were united in marriage last evening at 7 o'clock at the home of the bride's parents, 105 Eleventh street, by Rev. Edward H. Newcomb, pastor of the First Congregational church. Only members of the immediate families attended the ceremony. Miss Mary Upton Munn, a sister of the bride, was maid of honor, and Mr. Ernest M. Parsons of Brookline, was best man. After an extended wedding trip, Mr. and Mrs. Hovey will make their home outside of Boston.

## WEBSTER—TRUEWORTHY

The marriage of Mr. Harold O. Webster and Miss Ethel P. Trueworthy took place last night at the home of the bride's mother, Mrs. A. M. Trueworthy, 252 West London street, the officiating clergyman being Rev. Theodore Lyman Frost, S. T. D., and the double ring service was used. At the close of the ceremony a brief reception was held.

## CARPENTER—TRACY

The marriage of Mr. George Lewis Carpenter and Miss Mary Elizabeth Tracy was solemnized last night at the rectory of St. Michael's church, Rev. Fr. Shaw officiating. The bride carried a bouquet of American beauty roses. The witnesses were William Holland and Miss Nellie McCullough. After the ceremony a reception was held at the home of the bride's parents at 49 Ottawa street. Mr. and Mrs. Carpenter were the recipients of many useful and costly gifts. The couple left last night on their wedding tour which will include New York and Washington, after which they will reside at their new home in Mt. Vernon, N. H.

## ROURKE—O'HARE

The marriage of Mr. Patrick Rourke and Miss Mary O'Hare took place yesterday afternoon at the rectory of St. Peter's, the ceremony being performed by Rev. Fr. Mullin. The young couple were attended by Mr. Peter Rourke and Miss Rose O'Hare, sister of the bride. The bride wore white serge and carried bridal roses. Following the ceremony, a reception was held at the home of the bride, Mr. and Mrs. Rourke left after the ceremony on the 4-15 train for Boston, New York and Providence, and will return Saturday to their home, 43 Cedar street, to bid farewell to their friends before leaving on June 10th for a trip to Ireland.

## Harmless Duel

PARIS, June 5.—A harmless duel was fought yesterday by two gentlemen of Paris. Paul Hervey, the Academician, offended by a critical paragraph, which appeared in the Action Française, sent a challenge to Leon Daudet, the chief editor of that paper, who accepted.

The couple met yesterday at the Paris des Princes and fought with pistols. Four shots were exchanged, but neither of the combatants was touched, and a reconciliation was then brought about.

## POST 185, G.A.R. MEETING

Arrange for Memorial Services Next Year

The regular meeting of the Ladd & Whitney post, 185, G. A. R., was held last night at their rooms on Central street. Besides the regular business votes of thanks were extended to Camp 78, Sons of Veterans, and Mary E. Smith tent, Daughters of Veterans, for their assistance during memorial week; Circle 8, Ladies of the G. A. R., for their beautiful supper on the afternoon of Memorial day; town of Tewksbury for their usual cordial greetings; Rev. Miss Dixon for her fine oration, the patriotic exercises and the generous collection that followed. St. Paul's church for the excellent sermon of Dr. King, the fine organ recital and beautiful decorations on Sunday morning, and to Commander Derby and all others who furnished their automobiles.

Past Commander Jason L. Coffin was admitted by transfer from Post 11, Millford, N. H., to this post. The post voted to attend the Memorial service at the Grace Universalist church in May, 1914. The members also voted to meet but once monthly during the months of June, July and August.

## Sues For Lost Love

BOSTON, June 5.—Lovers were served yesterday afternoon on Henry J. Woodberry at his home, 53 Humboldt avenue, Roxbury, as defendant in a \$25,000 breach of promise suit brought in behalf of Miss Margaret Clarke, who resides with her mother and two sisters in the Back Bay.

## Indicted for Murder

PLYMOUTH, June 5.—The Plymouth county grand jury started yesterday afternoon to Judge Henry A. King at the county courthouse a large number of true bills, chief among them being one against James H. Sutherland, of Whitman, an ex-convict, charged with murder in the first degree of his wife, Winifred Sutherland, April 28. The indictment includes five counts, alleging death to have been caused by striking the woman over the head with a chair and also pouring scalding water over her head and body, from which cause she died.

Another series of indictments of general interest are those against William C. Butler for forgery at Wareham. Butler was charged with committing a wholesale series of forgeries in and about Wareham last October and was finally apprehended, and the grand jury found no less than 10 counts against him. He was not arraigned.

## JILTED LOVER SHOOT

Killed Widow Because She Refused to Marry Him—He Has a Wife and Children

NEW HAVEN, Ct., June 5.—An aged man's refusal to marry him, the police believe, caused Joseph Bergeron yesterday shot and killed Mrs. Elizabeth Dowsett at her home here, firing four shots into her body. She was about 50 years old, a widow and leaves three children, the youngest two years old. Bergeron, who was arrested soon after the shooting, is said to have a wife and several children in Springfield, Mass.

Seven of I. W. W. Sentenced  
PEORIA, Ill., June 5.—Seven Industrial Workers of the World, who went on a "hunger strike" in the city jail here and broke the dishes which were given them, were yesterday fined \$200 and costs by a jury in the city police court and sent to the workhouse for six months. The prisoners told the police that two more bands were headed for Peoria. They have abandoned the hunger strike.

Best Laxative for the Aged  
Old men and women feel the need of a laxative more than young folk, but it must be safe and harmless and one which will not cause pain. Dr. King's New Life Pills are especially good for the aged, for they act promptly and cast out the poisons of the system. Price 25c. Recommended by A. W. Dows & Co.

## SHAKES FIST IN COURT

Millionaire Clashes With  
United Shoe Head

BOSTON, June 5.—Jackson Johnson, president of the International Shoe company, a \$25,000,000 corporation of St. Louis, on stepping down from the witness stand in the United States district court yesterday, shook his fist in the face of the defendant, Sidney W. Winslow, president of the United Shoe Machinery company, which the government is seeking to dissolve.

A recess had been declared and the millionaire witness was about to pass the millionaire defendant when the two men met, glared and entered into a lively discussion of their attitude in the case.

requested by an officer of the United company to keep close to the excited men. Mr. Johnson cooled down a bit and then withdrew to the corridor, where the conversation was resumed in rapid fire order, but in an undertone. Before they parted, however, they smiled and shook hands and the threatening incident was closed pleasantly before the court proceedings were resumed.

## MISS DEVINE'S PLAY

Very General Demand For Its Repetition That the Public May Have a Chance to See It

There is a very general demand throughout the city for a repetition of Miss Devine's play which was presented at the Opera House a little over a week ago. Although the house was packed on that occasion, yet the audience was mainly made up of the school teachers and their friends. The general public should have an opportunity to witness the presentation of this original and thoroughly instructive play. It marks Miss Devine as a lady of very considerable talent as a dramatic writer, and judging from her acting on the stage in the title role of her own play, she is also an amiable actress of no mean ability.

Commercial Travelers Meet  
BUTLAND, Vt., June 5.—Welcome to this city by Mayor Henry Bristol, the commercial travelers of New England opened a three days' convention in Butland today. The sessions today were devoted to business. Tonight the members will be the guests of the business men of the city.

If you want help at home or in your business, try The Sun "Want" column.

Unique War Ship  
WASHINGTON, June 5.—Plans for the submarine tender Bushnell made public by the navy department today disclose the fact that the vessel not only is to be an entirely new type in the navy but will be altogether unique as a war craft. The contract for the construction of the Bushnell was awarded to a shipbuilding concern in Seattle, Wash. Her cost will be close to one million dollars and she is to be completed within 21 months.

THREE DOLLARS PER YEAR TWENTY-FIVE CENTS PER MONTH

## FREIGHT RATE INCREASE

While public opinion throughout the state now deplores the continual adverse criticism of the local railroads which was greatly responsible for the present unsatisfactory condition, it is very evident that this criticism has resulted in some good, one of its most direct effects being a desire on the part of the railroads to take the public into their confidence and explain their inner workings and designs in a degree heretofore unknown. Particularly significant, therefore, is the dinner to be given by the Boston chamber of commerce on June 12th, at which some of the greatest railroad heads in America, at their own request, will meet representatives of the commercial organizations of New England to seek information for their suggested plan to secure a five per cent. freight rate increase from the interstate commerce commission.

It is a further proof of the tremendous change in the mental attitude of the railroads that their side of the question will be sustained, not by legal representatives, but by President Brown of the New York Central, President Willard of the Baltimore and Ohio, and President Rea of the Pennsylvania railroads. This is the first time in the business history of the country that the railroads have taken such a satisfactory and intimate means of putting before the people their reasons for a suggested change, and as those present will be encouraged to protest, if they feel so inclined, and to ask all manner of questions, there is no reason why the meeting should not prove an unprecedented success. Although the ordinary meetings of the chamber of commerce are limited to members, each member is entitled to bring an interested friend to this dinner, and it is probable that the commercial life of New England will be well represented.

It is becoming generally recognized that the prosperity of the country depends on the prosperity of transportation interests just as much as the transportation interests depend on general prosperity. The railroads claim that the increasing cost of labor, supplies and all that concerns railroads makes it imperative that if the railroads are to be run on a paying basis, they must increase the present freight rates. While this is logical, there is also a limit to what business can stand, and many shippers believe that present rates are high enough or too high. Whether business men of this region would tolerate a flat raise of five per cent. or not remains to be seen, but until the matter is settled there can be no more satisfactory method of solution than the mutual exchanges of opinion which can be brought about by such meetings as the coming dinner of the Boston chamber of commerce.

## PRESIDENT SUPPORTED

Although those familiar with the history of senatorial investigations did not expect many incriminating disclosures from the lobby inquiry which has followed the strong accusations of President Wilson, the methods of this "insidious" lobby are being disclosed to the people in a new and significant light. The old time methods of direct corruption are discarded, or are very infrequent or carefully hidden, but even the everyday practices of life have been availed of by the interests who now strive to prevail on legislators by the allurements of social ambition, prominent business alliances, and ingratiating patronage.

This fact was borne out by the testimony of Senator Kenyon of Iowa before the senate investigating committee who declared that in his opinion no method of lobbying is more insidious and reprehensible than the practice of flattering senators by having them out to dinner, theatre parties and automobile rides. To illustrate his accusations he pointed out the sworn testimony of one of the greatest lumber owners of the country to the effect that when the lumber schedules of the Payne-Aldrich tariff bill were being framed, he had entertained the senators to dinner in Washington hotels.

Although people in general throughout the country do not ascribe this mode of procedure to those who have a selfish interest in pending legislation, and though it may seem childish and overdrawn to the average individual, it may readily be seen that if generally used—and the declaration that it is, is based on facts—it would eventually result in many evil practices. Appealing as it does to a false sense of honor it would put senators under unwelcome and unwise obligations to those towards whom their relations as regards imminent laws ought to be abstract and impersonal. It is not so dishonorable as financial bribery, but its ends are quite as injurious to the cause of democracy.

Although the abuses of the lobby practices described by Senator Kenyon are not of a nature easily regulated by law, the investigation will probably result in such a change of public sentiment as will make itself felt in national legislative circles. The tendency of the times is towards idealism in politics and people are not basing their ideas of what is right and what is wrong on the technical terms of prohibitive laws. The na-

tional conscience is awakened, and our legislators are expected to abide by the same broad rules of honor and honesty that govern, or ought to govern, the public actions of all the people indiscriminately.

## SAVE THE TREES

It is to be hoped that the recent meeting between the committee on trees of the park commission and representatives of three important public service corporations will bring about a better mutual understanding of mutual needs, and result in practical measures to prevent the displacement and destruction of our trees, already disappearing far too rapidly. If it be true, as Mr. Carr asserts, that promises made by these corporations in the past have not been kept, it is high time that the city should show itself in earnest in the very important matter of the preservation of its trees.

All who are in the least interested in the beauty of the city are interested in its trees. Without them we would have little claim to beauty, and if the present carelessness and indifference continue we may be without them in a very short time. Unfortunately for the comfort of our future citizens, we do not consider the needs of coming times as did the more unselfish people who planted them, and as a result we are getting ready a Lowell, bigger and busier indeed, but devoid of one of its greatest charms.

Wanton destruction of trees, or carelessness in replacing those destroyed by municipal command, cannot be held to progressiveness or a desire for economy. The cost of saplings is inconsiderable, and the most modern city planners include shade trees in plans for even the principal business streets. It is most desirable that the activity of the park department, and the renewed promises of the public service corporations should be regarded as evidences of a more general interest, and a promise of greater regard for the future preservation and replanting of our trees. By some it is claimed that the moth pests have had considerable to do with damaging some of our most beautiful city trees while others aver that the spraying with arsenical solutions has helped to kill many trees. The grand old elm on the park in front of Rogers high school was so badly cleared of bark and foliage by the elm beetle last year that it shows very little signs of life this year. Other noble trees have suffered in a similar way so that the park board if it means to protect the trees will have to look after more enemies than the electric companies.

## BASEBALL CAR SERVICE

The Bay State railroad will undoubtedly heed the recent protests of those who were inconvenienced by the unsatisfactory car service to Spaulding park on the occasion of a local baseball game, and it would be to the best interests of both the railroad company and the public that further dissatisfaction should not arise. There is little doubt in advance of the great number who attend these games, and the railroad cannot plead ignorance of conditions, or attribute the shortage of cars to an unexpected rush, as all of these things have been met with in former years, and ought to have been adjusted satisfactorily at the very commencement of the present season.

The most desirable change, of course, would be double tracks to the park. This outlay would pay even during the summer months. It is not probable, however, that such tracks will be laid, but there is no reason why there should not be sufficient cars to accommodate the crowds who patronize the ball games regularly. The man who is disappointed and forced to either abandon the game or arrive late, is in the very worst humor to excuse the negligence or unpreparedness of the road, and all who love the national game will sympathize with the disappointed one. May his tribe decrease.

## BOARD OF TRADE

All who are interested in the welfare of the city, and familiar with the great influence for good that may be exercised by unselfish civic organizations, will rejoice that the annual meeting of the Lowell board of trade finds the organization in such a satisfactory condition as it is at present. All bills are paid, there is a good sum in the treasury, and the membership has increased until the desired number of 1600 ought to be a possibility in the near future.

Besides the positive good done by the Lowell board of trade in specific instances, its influence on the prosperity of the community is of such a nature that it is productive of much good that cannot be defined or shown to the doubting observer. It serves to eliminate business selfishness, creates a healthy public spirit, brings a healthy initiative into public affairs, and advertises the city in the most desirable manner. It can be made subservient to public welfare in every respect, and as such it deserves the support and patronage of all who are sincere in the work of social and industrial uplift. May its influence for good continue.

If you want help at home or in your business, try The Sun "Want" column.

## Seen and Heard

Since the poultry and egg industry of Indiana and the other states has assumed the large proportions indicated by the two last national censuses, 1900 and 1910, there has been a demand for and growing interest in improved conditions and need for a broader knowledge of the underlying principles of the industry. The department of agriculture calls attention to the fact that the state agricultural colleges and experimental departments have given their attention to the various questions involved in the business, feeding, breeding and general management of poultry, while the instruction departments have built up practical courses in this branch of animal husbandry and have also assisted in disseminating the knowledge gained from the results of experimental work.

One of the most important of these is the production and marketing of eggs. Every year there is a loss of millions of dollars in lost eggs, the direct result of haphazard methods of production, marketing and shipping that are now used in many of the states. The greatest part of this loss is due mainly to lack of care or indifference on the part of the farmer and producer, and only a small part is caused by carelessness on the part of the buyer and less than one per cent. is due to the fact that many instances of the buyer's carelessness, for when he buys eggs by the case count system, he is liable to be careless in gathering and marketing the eggs, since he pays for them by the number of eggs, and not by the weight. The producer, however, will not try to shield himself under this pernicious system, so it is much to his advantage to aid in the improvement of the commercial egg.

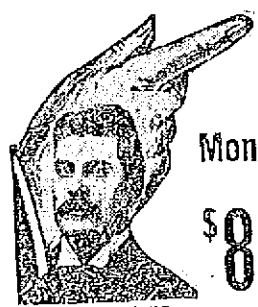

## WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Belleuve, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Belleuve, Ohio.

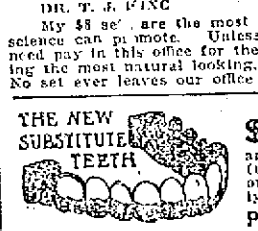

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

the department of agriculture says. He may not receive an extra compensation at the very start, but just as surely as he makes an organized effort to furnish the trade with strictly fresh eggs so surely will the competition in trade make it possible for him to dispose of his superior product at an increased profit.

With the view of determining the cause of the heavy loss in eggs and if possible to work out methods for its elimination, the department of agriculture, through the bureau of animal industry, undertook a thorough investigation of the problem. Harry J. Lamon, junior animal husbandman and Charles L. Opperman, of the animal husbandry division, have agreed that if the following simple rules are adhered to by egg producers a high quality of product will be assured and a large part of the loss now experienced in the value of the country's egg production eliminated:

Give the hens clean nests; gather eggs at least once each day; keep eggs in a cool, dry place; market eggs at least twice a week; kill or sell all mature male birds as soon as the hatching season closes.

THE ISLE OF LONG AGO  
(Published by request)  
Oh, a wonderful stream is the River Time  
As it flows through the realm of years  
With a faultless rhythm and a musical rhyme  
And a broader sweep and a surge sublimely  
And blends with the oceans of years.  
How the winters are drifting, like flakes of snow,  
And the summers like buds between,  
And the years in the sheet—so they come  
On the rivers breast with its ebb and flow,  
As they glide in the shadow and sheen.

There's a magical isle up the River Time,  
Where the softest of airs are playing;  
There's a cloudless sky and a tropical climate  
And the June with the roses are staying.  
And the name of the isle is Long Ago,  
And we bury our treasures there;  
There are brows of beauty and bosoms of snow,  
There are heaps of dust, but we love them so,  
There are trinkets and treasures of hair.

There are fragments of song that nobody sings  
And a part of an infant's prayer;  
There are broken words and a lute without strings,  
There are broken vows and pieces of rings,  
And the garments she used to wear.  
There are hands that are waved when the fairy shore  
By the magic is lifted in air;  
And we sometimes hear through the turbulent roar  
Sweet voices we heard in the days  
When the wind down the river is fair.

Oh, remembered for aye be the blessed isle  
All the day of our life till night,  
And when evening comes with its slumber awhile,  
May that Greenwood of soul be in sight.  
—Benjamin F. Taylor.

## EDITORIAL COMMENT

Modern Danes  
Lynn News: The turkey trot and the tango are still being hit and hard. Even those who defend them say that it takes experts to dance them properly and that with all other things it is better to be safe than sorry. Certainly, anything of which that is true is well advised.

An optimistic Message  
Fitchburg News: If we have any green-eyed sufferers in Fitchburg from "tariffitis," that weird malady that strikes the meek and timid and childish ailments, we hope that they read the interview in last night's Daily News with Mr. C. Willis Bennett.

Mr. Bennett, who is a large manufacturer of one in this city, has just returned from a three-weeks' trip through the great middle west, during which he visited a score of the largest cities, from Buffalo, N. Y., to Omaha, Neb., and Wheeling to Duluth.

What Mr. Bennett said we think well worth reproducing again in this

column, because we want everybody in Fitchburg to read it. Here it is: "Times are good in the west," said Mr. Bennett to the Daily News. "Business seems to be humming everywhere. I went 1,000 miles across the country, and I found everywhere a most successful in every respect."

Fall River Bill Boards  
New Bedford Mercury: The Fall River newspapers are campaigning against bill boards. The city of Fall River through its chamber of commerce, is one of the chief offenders in Massachusetts. Its slogan, appearing upon bill boards along the river or in the city, is "Fall River is a beautiful city." The elimination of these bill boards is a first undertaking. Then it will be in a logical position to pluck out the mote of brother's eye.

No Audience  
Brookline Times: When one of the L. W. leaders went forth to address a widely advertised mass meeting he found no audience. Was it because Philadelphia people were slow to gather, or because they were quick to the advantage of one of the best possible methods of discouraging tactics that damage industry.

End of War  
Woonsocket Call: There are nine foreign states that wish to look into Mr. Bryan's peace plan in the hope of being able to subscribe to it. "This is most encouraging. War is not dead, but the ill war spirit is in a state of low ebb and it may be said to be approaching complete dissolution. That is to say, war as a national profession is disappearing rapidly. Rulers, subjects and citizens are anxious for peace. The war will no longer be a means of aggrandizement. The old fondness for the chase of the pack is being eliminated from human nature."

The Circus  
Manchester Mirror: Students of human nature have tried for years and in vain to discover why men, women and children never tire of going to the circus to see the same round of performances, hear the same jokes, their fathers heard, witness the same antics of the clown. It is useless to speculate on the reason. The fact is that the circus has a hold on the people that nothing seems able to loosen.

Who?  
Newburyport Herald: Bishop Brent, coming across England in the steamship, says he believes "the place for a clergyman is with the common people." Who are the "common people," anyway?

TY-BELL SISTERS COMING  
Wonderful Human Buttery Act to be Seen With Ringling Bros' Circus Which Comes Here Next Wednesday

The most beautiful and dangerous act ever attempted is the human butterfly act, a dental suspension performance now being presented by the Ty-Bell sisters of France with the Ringling Bros' circus. As a sensational spectacle it ranks first. The big circus is billed to exhibit in Lowell on Wednesday, June 11. The human butterfly act is a new creation and a striking aerial novelty. Holding by the teeth to slender steel rods, three Venus-like girls are drawn to the dome of the tent. By means of intricate mechanism on the canvas roof of the tent they are enabled to glide through space with darts, fly and circle through space with the grace of birds while multi-colored electric spot lights bathe them in floods of fantastic luminescence. They are clothed in flowing robes of delicate lace and tulle, which, together with long wings of fine spun glass, give the spectacle an ethereal charm that is entrancing to beholders. Though the novelty and the sublime splendor of the performance are two of the features, the great danger and for a moment lost sight of. It is a thriller of the most legitimate kind, inasmuch as it requires the strongest nerves and a real heroism to accomplish it, not having to depend on exaggerated methods and the absolute protection of sure-fire machinery. There is real and not merely suggested danger in the act, which fact is evident on sight.

This is the highest-priced aerial act ever imported, and no one can see a similar act in the United States. The Ty-Bell sisters are merely "iron-jaws" acts in disguise. This is the greatest performance which has ever been presented by the Ringling Bros' circus. It alone is a feature strong enough to insure success to any circus. But the management does not stop there. Every one of the 375 headliners is a past master in the arts of circus entertainment. The big and remarkable drawing card ever offered by any circus, is the newly added \$500,000 wordless spectacle, "Don't Look At Me," which is billed as the regular performance. It employs 1200 persons, 600 horses and a trainload of special scenery. It is presented on the largest stage in the world, so big that all the assemblage of men, women and horses can remain upon it in the grand ensemble scene while 300 girls are dancing.

It is something new for a circus to undertake. Its expense is such that only a big concern like the Ringling Bros' could attempt it. It has served to increase the patronage of their show to such an extent that additional excursion trains are being run from Lowell to the circus grounds, being done by Steward A. L. Webb every morning.

AND Panacea for Breakfast  
It is not unusual for the many cooks with Ringling Brothers' circus hotel to make and serve 1000 pancakes at a time. The people with the circus, and there are 1256 of them, like well, all the food used in the circus is bought in the towns visited. The marketing being done by Steward A. L. Webb every morning.

FISH AND GAME CLUB  
Adds Fifteen New Members to its List

The Lowell Fish and Game association held another meeting and 15 new members were added to the fold. There is no longer any doubt as to the possibilities of the local organization, and it bids fair to become one of the best organizations of its kind in the state. There was a deal of discussion at the last meeting that was of interest to the members. At the former meeting of the association the question of stream or brook posting was taken up and the discussion was renewed at the meeting Tuesday night.

President Derby had promised to get something tangible to present to the association relative to the posting rights of property owners. A deal of streams but he did not succeed in collecting anything definite along that line. It seems that "no trespassing" signs appear along the banks of streams that have been stocked by the state, and it seems the prevailing opinion among members of the association that if a farmer or any other stream abutter gives a state representative permission to stock the stream, posting of the stream is not permissible.

The association voted to request a manufacturing company in North Chelmsford to install a screen to prevent the fish from going into its sluiceway. It is said that fish coming from crystal lake are being taken in by the water wheels and killed.

## DROPPED TO HIS DEATH

New York Dentist Fell  
From Eighth Floor

NEW YORK, June 5.—Dr. Stephen O. Storck, a dentist, 35 years old, was killed early today by falling or jumping from the eighth floor of an apartment house in West 58th street, where he lived with his wife and two children. Friends say that overwork has unbalanced his mind.

## AUSTIN'S BODY CREMATED

At Golders Green Without Ceremonies

LONDON, June 5.—The body of Alfred Austin, poet laureate, who died on Monday, was cremated today at Golders Green without any ceremony, but by permission of King George a memorial service was held in the Chapel royal, St. James' palace, at the same hour. This service was attended by the members of the Austin family.

## PLANE PLUNGED TO EARTH

Two Occupants Were  
Instantly Killed

BUC, France, June 5.—The French airman, Auguste Bernard, and a passenger were killed today while flying at the aerodrome here. The aeroplane while at a considerable altitude suddenly plunged violently to the earth and was shattered. The cause of the accident is unknown.

## LOWELL EAGLES

Will Be Active in Athletic Meet of State Societies to Be Held During This Month

Lowell Aerle, fraternal order of Eagles, is planning on making a big show in the state athletic meet that is to be held within a few weeks on the outskirts of Boston. The Lowell aerle will be represented in every event that is slated for that day, including the baseball game, and the local men believe that the team that beats Lowell will be a wonder, as they are making his preparations for these events. Worthing President Playman, who has put much time and energy for the success of the Eagles, says that the same spirit prevails in the athletic section of the fraternity as has recently been shown in increasing the membership.

## NEWS OF BILLERICA

POLLARD SCHOOL, EXERCISES TO BE HELD TOMORROW

Ladies of the G. A. R. Observed "Flag Day" Yesterday With Exercises in Odd Fellows Hall

"Flag Day" was observed at the meeting of the Ladies of the G. A. R. in Odd Fellows hall, Billerica, yesterday afternoon. After the business meeting at 2 o'clock, public exercises were given at which many friends and invited guests were present. John B. Lewis of Boston, National president of the patriotic instruction association gave a short address and there were remarks by Conrad Freeman and Langley of Post 156, Everett, Mass. A delegation of fourteen members from the circle of Hudson, N. H. was present as guests. During the afternoon a recitation entitled "Our Flag" was

given by Francis Corkum. Other numbers on the program were: Reading, Gladys Holden; piano solo, Merriam Smith; and exercises by the pupils of the Pollard school.

The work of the different classes of the Pollard school will be on exhibition at the school rooms for the remainder of the week and all mothers and friends of the pupils are cordially invited to inspect the work.

The graduation exercises of the Pollard grammar school will be held tomorrow afternoon and all are invited to attend. They will consist of exercises by the pupils in the senior class and members of the school committee will be present and speak.

## TAX ASSESSMENTS

Continued

necessary for the city to accept the provisions of chapter 447, acts of 1912, relative to retirement of veterans, and Commissioner Cummings moved the acceptance of the act and the retirement of Mr. Hill. It was so voted.

To Borrow \$7000  
The mayor read the \$7000 loan order for a new barn for the Chelmsford Street hospital. It was explained that not more than \$2200 of the \$6000 would be spent on labor, the rest going to material, lumber, etc. It was stated that about \$1500 was received as insurance on the barn that was burned last summer, and that amount was used for the erection of temporary quarters for the horses and cows. The order was adopted without opposition.

Hearings on Petitions  
The petition of the N. E. T. & T. Co. for permission to erect two poles on West Sixth street, between Coburn street and No. 36, was assigned for a hearing, June 24, at 11 a. m.

The same case was mapped out for other petitions by the same company as follows:

To erect one pole on West Sixth street, opposite No. 236.

For permission to erect seven poles on Dingwall street between Middlesex street and Lowell Electric Light Corporation's pole No. 1790.

For permission to attach additional wires and fixtures to its poles on Coburn street between Richardson avenue and West Sixth street.

For permission to attach additional wires and fixtures to its poles on Starbird street, between Varnum avenue and Woodward avenue.

For permission to attach additional wires and fixtures to its poles on B street and New Spaulding street, White street, between Riverside street and No. 104, to poles of the Lowell Electric Light Corporation on Cornell street, pole corner West Sixth and Beaulieu streets; to poles of Lowell Electric Light Corporation on Woodward avenue, Courtland street, West Fifth avenue and corner of West Sixth and Bolsovert streets.

The petition of the Lowell Electric Light Corporation to attach its wires and fixtures to poles of N. E. T. & T. Co., on East Merrimack street, between the Concord river and Davidson street, and on Lakeview avenue, between Ennelt street and Ferry lane, were referred to the commissioners of streets and highways and public property and licenses.

Street Petitions  
The petition of the heirs of John Minahan that the concrete sidewalk in front of 4 Sargent street be accepted, was read and referred to the commissioner of streets and highways, as were the following petitions: Petition of Kathryn Winn et al. to accept sidewalk and curbstone on Merrill avenue.

Petition of Mrs. Fred Ramsley et al. that State street be macadamized and the edges reset.

Petition of Francis D. Mann et al. that Eleventh street be resurfaced and oiled from Methuen street to Merrill avenue.

Petition of Mary J. Callahan for abatement of sewer assessments amounting to \$381.59, against her property on Llewellyn street.

Petition of Mrs. Ada M. Judkins that a sewer be laid in Hillside street north of Essex street to Orleans street.

To Keep Explosives  
The petition of James J. Norton for license to keep store and use gasoline in the ground in rear of prem-

ises on Chelmsford street, corner of Inland street, was referred to the commissioner of public property and licenses.

## \$9,000 For Textile School

A communication from the trustees of the Lowell Textile school, was read. The communication had to do with the payment of \$9,000 to said school, and accompanying the communication was a copy of the resolve, chapter 91 of the year 1913. The \$9000 is required to provide free evening instruction for the calendar year 1913, an increase of \$1000 over the amount appropriated last year, the number of evening pupils residents of Lowell for the current year having increased from 435 the previous year to 522 for this year.

James T. Smith, clerk of the board of trustees of the Textile school, was present at the meeting.

Accompanying the communication was an order appropriating \$9000 and another instructing the board of assessors to raise the sum of \$9000 by the assessment of additional taxes for the year 1913.

The communication was received and placed on file and before the order was adopted, Mr. Smith explained the necessity of \$1000 extra for the school this year, quoting what appeared in the letter to the council.

The order for additional assessment of taxes to raise the \$9000 was passed and the order appropriating the money was assigned for consideration, June 18.

## Social and Athletic Club

In compliance with the request of Frank J. Donahue, secretary of the commonwealth, Mayor O'Donnell, in the matter of the application of Patrick F. V. McCarthy and others for incorporation under chapter 125, revised laws, as Princeton Social and Athletic club, investigated and reported that none of the incorporators have been engaged in the illegal selling of intoxicating liquor or keeping places of illegal gaming, nor have they been engaged in any other business or avocation prohibited by law. The report was accepted and will be forwarded to the secretary of state.

## Weighers of Hay

The applications of Frederick G. Humphreys and William Manning for appointment as weighers of coal, hay and other articles were read and approved.

The order accompanying the report of Commissioner Donnelly for a sidewalk of edge stones and cinders or gravel on the westerly side of South street from Gosham street, northerly about 100 feet, was read and approved.

## Lucy Larcom Park

Mayor O'Donnell called the council's attention to the fact that no appropriation for Lucy Larcom park had been made this year and it was agreed that this honor would bring in an order at the next meeting.

"The statement was made in this chamber," said Com. Cummings, "that paper help was employed to keep Lucy Larcom park in shape last summer. I knew that statement was false and I would like to have the public know that it was false."

"Who in this council made that statement?" asked Com. Brown.

"No member of this body, but another orator on the outside," said Mr. Cummings.

Money For Playground  
The mayor then called attention to a reported shortage of money for the continuance of the West Centralville or Greenhalse school playground and recommended that the sum of \$300 be provided. After some discussion, the mayor said he would ascertain from the city auditor if any money was available and report at the next meeting.

## City Seized Land

The mayor read a communication from the engineer's department relative to land taken by the city for the extension of Aberdeen street. The land was taken by the city and has not been paid for. The amount is about \$84 and the matter went over to the next meeting.

The order appropriating \$31,000 for painting and repairing bridges went over for consideration, to the next meeting.

Adjourned.

## ROYAL ARCANUM DAY

Post 42, G. A. R., Going to Gettysburg

## THE STREET CAR MEN ORGANIZE LADIES' AUXILIARY

Members of Mt. Zion Lodge Will Attend District Convention in Newburyport Next Saturday

Industry Council Royal Arcanum, held a well attended meeting last evening in Odd Fellows hall, Regent Michael J. Sullivan presiding. The death of the late Brother Francis J. Mullin was read and referred to be forwarded to the supreme secretary for payment. Communications were received from the supreme council holding the list of officers elected at the supreme convention which was recently held in Quebec, P. Q. also a letter was read from the newly elected Supreme Regent Frank E. Wickesham of Pennsylvania, urging the council to celebrate the 36th anniversary of the Order or Arcanum day, June 23rd, 1913.

The council voted to celebrate Arcanum day with a stereotyped lecture by Supreme Trustee John J. Hogan in connection with ladies' night. The entertainment committee is making arrangements for the annual outing which will take place during the month of August and a general good time is expected. Under the good of the order the orator passed the cigars. At the conclusion of the meeting an enjoyable card party between the members and the visiting brothers from other local councils was enjoyed. The degree team will hold their weekly rehearsal on Tuesday evening June 10th in Odd Fellows hall.

## Post 42 G. A. R.

The regular meeting of Post 42, G. A. R. was held last night in Memorial hall with a large number of members present. A large amount of routine business was transacted and an order was transferred from post 10 of Moline to this post. Plans were made for the trip to Gettysburg on June 27 and it is expected that nearly twenty members of this post will make the trip. Senior Vice Commander John Harrington presided during the meeting.

## Court City of Lowell, P. A.

A well attended meeting of Court City of Lowell was held last night in the Odd Fellows temple on Middlesex street. Several applications for membership were received and the reports showed the order to be in excellent condition. A committee was appointed to arrange for an entertainment to promote good fellowship among the members. Sub Chief Ranger Adolph Holstein presided.

## Ladies' Auxiliary Car Men's Union

The Ladies' auxiliary of the Street Car Men's union held their regular monthly meeting in the Russell building last night. A large number of new members were initiated into the auxiliary. In the absence of the president, Mrs. P. F. Lowe presided. The next meeting will be held on June 18 and all members are invited to be present.

## WANTED

If you want help at home or in your business, try The Sun "Want" column.

## OWNER OF 35 DOGS SUED

**Spoiled by Dog Barks**

BOSTON, June 5.—Dora Black, who owns an estate on North Main street in Reading, claims that her near neighbor, James A. Baxter, has altogether too many dogs, which are given to howling, yowling and crying at such times and so continuously that she has lost the enjoyment of her own home.

She wants him restrained from howling and keeping the dogs and will be in court tomorrow to state her grievance.

She says that when she bought the place where she now lives and built her house she did not know that Baxter had so many dogs or that they barked and howled so continuously.

She describes the dogs, of which she says there are as many as 35 or 40, as of various kinds and breeds, which "bark, howl and yowl incessantly and all for long periods of time."

She states in her bill in equity that the barking and other canine evidences of grief or joy are too much for her peace of mind. She would like to sell, she says, and even had a prospective purchaser, but, unfortunately, he happened around at a time when the dogs were fairly under way in their uproarious conduct and he lost his ambition to buy the owner's property.

She alleges that the keeping of so many dogs, who have proved to be in such good voice, is an abnormal use of Baxter's premises, and that the barking, howling and yowling of so many dogs is physically unbearable and uncomfortable to her.

## LOWELL TEXTILE SCHOOL

Exercises of Graduation Will Be Held Tomorrow Afternoon in Southwick Hall

The exercises of graduation of the Lowell Textile school will be held tomorrow afternoon in Southwick hall. The principal address of the exercises will be made by Frederick W. Hamilton, former president of Tufts college, and president of the board of trustees, will also speak. And the Arington mill textile design prize will be presented by Franklin W. Hobbs, president of the Arington mills. The chemistry awards will be made by Principal Charles H. Fames. There will be music by Hubbard's orchestra.

Nineteen three-year students will receive diplomas and for the first time in the history of the school, a degree will be awarded, one for bachelor of textile design and another for bachelor of textile engineering. The school will be open to the public before and after the exercises.

In the evening the annual banquet of the Alumni association of the school will be held. The speakers will be Leroy D. Pease, vice president of the Babson Statistical Organization, of Westley Hills, Theodor A. Kelley, chief engineer of the Merrimack Manufacturing Co., Pres. A. G. Gunnick, Secretary, James T. Smith, and Principal Charles H. Fames. Everett R. Rich, of Worcester, will be the toastmaster.

## TO AMEND INCOME TAX MADE GOOD HIS PROMISE

**Unconstitutional Defect to be Remedied**

WASHINGTON, June 4.—Before the senate acts on the Underwood tariff bill the income tax section will be amended to remedy a defect which, it was discovered yesterday, would make the measure unconstitutional. When the framers of the income tax provision fixed Jan. 1, 1913, as the date from which to compute income for taxation, they overlooked the fact that the constitutional amendment authorizing an income tax was not proclaimed as ratified until Feb. 23, 1913. This fact was brought to the attention of the senate finance subcommittee which has the income tax under consideration and an amendment probably will be drafted at once.

Aside from the constitutional defect, arguments have been presented in favor of making the taxable income account for the first year from July 1, or later. As far as the constitutional limitation is concerned it would be legal to compute incomes for 1913 from Mar. 1st.

## Exonerated Woman

ST. LOUIS, June 5.—Mrs. Isabelle Martin, who yesterday shot and killed her husband, Charles T. Martin, was exonerated by the coroner's jury here yesterday, and the circuit attorney announced that no charge would be preferred against her at this time.

Mrs. Martin said she shot her husband when he advanced toward her with a carving knife. They had quarreled over his alleged attentions to another woman.

## DANGER LURKS IN WAVES FOR SPEEDY MOTORBOATS IN BIG RACE TO BERMUDA

PHILADELPHIA, June 5.—Keen in interest among motorboat enthusiasts prevailing at that time. Commodore the country over is manifested in the Charles Lagan, whose Dream defeat of the Kathemna last year, will enter from this city to Bermuda. The race his yacht again. Thomas Fleming is scheduled to start June 7, earlier Day, who crossed the Atlantic in a 33 this year than last so as to take

## TO AMEND INCOME TAX MADE GOOD HIS PROMISE

LEE, June 4.—A promise made 24 years ago was fulfilled yesterday when Charles Blonde received a check for \$10,000 from his brother, Joseph Blonde of Anchor, Wyo.

When he left Lee in 1889 to seek his fortune in the west, Joseph told Charles that he would make him a present if he prospered. In a letter accompanying the check Joseph said he had not forgotten his promise and he had "made good."

## WANTING CLUB NEWS

The Board of Directors Held Important Meeting Last Evening and Transacted Considerable Business

The board of directors of the United States Bowling club held an important meeting last evening and transacted considerable business. The new club house has been put into shape to accommodate the members during the summer months and the finances of the club are in excellent condition.

On Saturday, the cricket team of Fitchburg will come to Lowell to play the Sunning. Fitchburg has an exceptionally strong team. The annual field day of the club will be held on August ninth and by that time the oval will be in first rate condition for springing.

Following is the lineup for Saturday's game: A. Briggs, captain; S. Nichols, first; J. Barrett, E. H. H. Birtwell, J. Higginbottom, M. Marsh, T. Strick, J. O'Connell, P. Chapman and I. Shaw.

## WANTING CLUB NEWS

The Swedish Congregational Church Do Not Want Their Pastor to Leave Lowell

The Swedish Congregational church society do not want their pastor, Rev. John Elmen, to leave Lowell. Mr. Elmen has resigned and his resignation was discussed at a meeting of the church society last night. It was the unanimous opinion of the congregation that he be asked to remain.

The meeting was presided over by the three deacons, Edward Anderson, Birger Peterson and Alfred Swanson. It was voted to request Mr. Elmen to remain here for a time at least. Previously the deacons of the church had asked the pastor to refrain from stating definitely if he would accept call elsewhere, until after the society had met and he agreed to do so.

## LEGAL NOTICES

**MORTGAGEE'S SALE OF REAL ESTATE**

By virtue of a power of sale contained in certain mortgages duly given by John M. Ryan and Bridget M. Ryan, wife of said John M. Ryan, in her own right, both of Lowell, in the County of Middlesex, to the County of Middlesex, to William T. Sheppard, of said Lowell, dated October 10, 1912, and recorded in the Registry of Deeds for the Northern District of said County, Book 43, Page 494, will be sold at public auction for breach of the conditions of said mortgage, on the premises hereinafter described on Saturday, the twenty-first day of June, A. D. 1913, at three o'clock in the afternoon, all singular the premises conveyed by said mortgage, and therein described substantially as follows:

That parcel of land with the buildings thereon situated on the north side of Lincoln street, that part of said Lowell called Ayer's City shown as Lots 144 and 145 on a plan entitled, "Plan of Land in Ayer's City, in the County of Middlesex, State of Massachusetts, surveyed and divided in 1852 by Butler and Swan, Civil Engineers, Lowell, Mass., dated May 10, 1852, and recorded in the Registry of Deeds for the Northern District of said County, Book 3, Plan 6, and bounded: South by said Lincoln street 50 feet; easterly by lot 143 on said plan, now owned by Robert G. T. Sheppard, entry 575 (75) feet; northerly by Poplar street 50 feet; and westerly by lot 145 on said plan, now owned by the County of Middlesex, 50 feet. Containing three thousand seven hundred and fifty (3750) square feet of land, and be said contents and any or some of said easements more or less, and being the same premises to said Bridget M. Ryan conveyed by Samuel N. Harris by deed dated May 15, 1890, and recorded in the Registry of Deeds for the Northern District of said County, Book 275, Page 121.

The above described premises will be sold and conveyed subject to a mortgage given by John M. Ryan and Bridget M. Ryan to The Central Savings Bank dated October 10, 1912, and recorded in the Registry of Deeds for the Northern District of said County, Book 43, Page 494, and also subject to any and all unpaid taxes, municipal or other assessments and tax sales which may be due or to become due thereon. The purchaser or will be required to pay \$100 in cash at the time and place of sale, and the balance in ten days from the day of sale at the option of William T. Sheppard, 103 Central street, Lowell, Mass. WILLIAM T. SHEPPARD, Mortgagee.

## KNOX AUTO CASE IS DISCHARGED

Rescript Filed in Case of Brown vs. O'Donnell et al.—This Practically Ends Controversy

In the case of George H. Brown et al. vs. James E. O'Donnell et al., pending in the superior court, a rescript was filed June 2, directing that the report be discharged.

This is the case in which Commissioner Brown asked the supreme judicial court to rule upon several questions affecting the purchase of materials and supplies, and which was returned, by Chief Justice Arthur P. Fogg to the superior court, no decision, as Mr. Brown had requested, having been made.

This latest phase indicates practically the end of the controversy.

The case was brought as the result of the purchase of a fire automobile, the Knox machine being specifically named. The Knox machine is now paid for. Notice of the discharge of the report, ending the case, was received by City Solicitor Hennessy, Clerk Dillingham, clerk of courts for Middlesex county, forwarding the notice to Mr. Hennessy.

## DAVID SIDEMAN STRUCK SCHUSTER

Blood Spilled Saved in Handkerchief to be Shown to Judge—His Honor Unmoved

In police court today the case of David Sideman, charged with assault and battery upon Morris Schuster, proved a rather mirth-provoking mixture. Both complainant and defendant were very strenuous in their testimony and their attorneys were kept busy controlling the fervid emotions of their respective clients.

The first witness to take the stand was Schuster. He told the court that he was walking down Chelmsford street, between six and seven o'clock Saturday night when the defendant, who was standing on the curb, without saying yes or no, walked over to him and knocked off his hat, later also putting over a Foley punch to his mouth. Upon advice of his counsel, A. S. Goldman, Esq., he exhibited to the court a gory looking handkerchief which he testified he had used to stop the flow of blood from his battered features. Under cross examination by Frank Goldman, Esq., the defendant's representative, he denied that he said anything that could be construed into an offense to the defendant but acknowledged that he did not like to be called "ike." His proposed brother-in-law, in other words the brother of the girl to whom Schuster is engaged, was the next witness. He tells news, apers in Merrimack square, he said, upon cross examination. He story corroborated that of the complainant. Attorney Frank Goldman tried to make him admit that he was not on the scene when the fracas occurred, but witness said that he was.

The defense denied everything that the prosecution claimed except that they acknowledged the assault. They claimed, however, that Sideman hit Schuster in self defense, that the latter did not take kindly to the appellation "ike" and that he announced by his actions that he was going to strike the defendant. After taking all the evidence under consideration and asking both principals in the affair leading questions, Judge Earle announced that he would place the case on file

and that the defendant must stand the costs of the trial.

The case of Thomas Maranille, charged with the larceny of \$5.00 from the local branch of the loomknuts' union was settled outside of court when the defendant announced to the financial secretary of the union, who was already testifying on the stand, that he would settle for his shortage.

Michael J. Santry was sent to jail for a period of three months for drunkenness. Joseph M. Akers was given one more chance to reform, getting a suspended sentence to the state farm. George J. Keefe and Francis Maguire were fined \$5 for their second arrest for drunkenness within the year.

**Suspected of Theft**

James Rourke, the man who was arrested over a week ago for the larceny of several lead pipe connections, pleaded not guilty to the charge when his case was brought up at this morning's session of police court. The case was continued when the defendant was first brought into court in order to give the police an opportunity to bring the owner of the stolen goods to light but the case went on today without Superintendent Welch having been notified about such a theft being committed.

Officer Ganley took the stand and testified to having arrested the defendant on Broadway with the stolen pipe in his possession. Rourke affirmed then, as he did also this morning, that he had found the lead on the First street dump and refused to say anything more. Officer Ganley, knowing the evil reputation of the man and thinking that the circumstances warranted it, immediately had him taken to the station.

The pipe in question was on exhibition this morning in the court room. Superintendent Welch was of the opinion that the short, empty leaden tubes were gas meter connections and that the defendant had probably raided some house which is now vacant. This theory explains why the owner has made no notification to the police department. The defendant returned very unsatisfactory answers to Judge Earle's queries when the court tried to get at the bottom facts in the case. Rourke has been sentenced before for exactly the same kind of a theft on Paige street. He was given a four months' sentence to jail.

## INVESTIGATE SCANDALS

Connected With Mexican Company Contracts

LONDON, June 5.—The parliamentary committee investigating the scandals connected with the contracts between the Marconi company and the British government after several secret sittings met in open session today for the examination of a new witness named Salaman on the question of Lord Murray of Ellbank's dealings in Marconi shares.

Salaman testified that in April and May, 1912, Lord Murray of Ellbank purchased some 3000 American Marconi shares at \$4. The conservative newspapers of London have recently started an agitation to have the Marconi committee discover Lord Murray Ellbank's connection with the scandals.

It is pointed out in the press that he resigned his position as liberal whip in the house of commons when the Marconi contract first came up for decision in parliament and that he was raised to the peerage on his resignation. He then went to America on business, where he has since remained, the paper says, maintaining silence concerning the Marconi affair. Lord Murray of Ellbank, who was to have been called before the committee crossed the Atlantic some time in March and on May 2 was in Bogota, Columbia.

## ARGUMENTS IN DYNAMITE CASE

Began This Afternoon—Judge Orders That Separate Verdicts Must be Rendered on Each Count

BOSTON, June 5.—After introducing several witnesses to corroborate the testimony of the different witnesses yesterday, the defense of Frederick Atteaux in the dynamite conspiracy case rested at 11.20 today.

It is expected that the case will go to the jury as soon as counsel for President William M. Wood of the American Woolen Co., elected to call no witnesses, and the third defendant, Dennis J. Collins, turned state's evidence.

### Hatched Dynamite Plot

Among the witnesses for Atteaux were William B. Watts, former chief inspector of the Boston police, and A. A. Corby of Lawrence. Their stories tended to confirm the version of the dynamite affair given by Atteaux, who set up that John J. Breen and Ernest W. Pitman hatched the plot to "plant" dynamite on the premises of the textile strikers at Lawrence. Later the defense claims Breen drove Pitman to the defense by threats of exposure and then used the same tactics in an attempt to blackmail Atteaux and Wood. Collins corroborated Breen in part but did not

involve the other two defendants.

Watts testified to an interview with Breen in which the latter told of the damage suits brought against them by those in whose houses dynamite had been "planted," and said what he had done was for the mill and he thought that Atteaux ought to get him \$13,000.

On cross examination the witness said he thought Breen was trying to blackmail Atteaux. Joseph Pelletier wanted to know why if he thought Breen was a blackmailer he had not reported the matter to the district attorney's office.

Watts replied that he had not fully made up his mind that his suspicions were justified.

**Check Identified**

Corby corroborated Atteaux's explanation of what he had done with a part of the money paid Atteaux by the American Woolen Co. for expenses incurred in connection with the Lawrence strike. He identified a check for \$300 as one given him by Atteaux.

early day, not later I may suggest, than June 10, 1913.

Very truly yours,  
Abel R. Campbell,  
Chairman Committee on School Houses and Hygiene.

## BILLINGS STREET SCHOOL

Hearing on Sanitary Conditions Existing There

The lands and buildings department will improve the sanitary conditions at the Billings street school. This information was given out by Commissioner Cummings this afternoon. Mr. Cummings has made arrangements to meet people in Centralville this evening who have spoken to him about the condition of the school and he will listen to whatever suggestions they have to offer.

Mr. Cummings says that the lands and buildings department spent \$100 last year in an endeavor to correct certain evils in connection with the sanitary conditions at the Billings street school and he further states that at this particular time of the year the conditions at that school seem to be worse than at any other time in the year. The odors arising and circulating through the building are very offensive especially when a south wind is blowing.

### School Committee on the Job

On the 24th day of last month Abel R. Campbell, chairman of the committee on school houses and hygiene, addressed letters to all of the school physicians admonishing them to make a careful inspection of the closets used by the children in those schools, will you kindly do so at your earliest convenience.

Lowell, Mass., May 22, 1913.  
Dear Doctor: If you have not already, in your visits to the schools in your immediate charge, made a careful inspection of the closets used by the children in those schools, will you kindly do so at your earliest convenience.

It would be of much interest to me to know your opinion concerning the respective merits of "dry closet" systems and water-flushed systems, and I would be glad to have your opinion in writing at an

early day, not later I may suggest, than June 10, 1913.

Very truly yours,  
Abel R. Campbell,  
Chairman Committee on School Houses and Hygiene.

About all of the school physicians have reported to Mr. Campbell and they are unanimous in their disapproval of the dry closets.

To the writer Mr. Campbell said: "I have had several interviews with Commissioner Cummings relative to dry closets, particularly in the case of the High school, and I believe that he intends to install the flush system there this summer during the vacation period. The school janitors, under the careful supervision of William E. Thornton, are doing all that can be done in the interest of clean schools and school sanitation. The janitors are all hard working men and this also applies to the school physicians, who, I think, are the best in the state."

## UNKNOWN MAN BURIED

He Was Killed by Train Yesterday

This afternoon the remains of the unfortunate man who was killed by a train in South Lowell yesterday lay at the undertaking parlors of George W. Healey still unidentified, and upon the advice of Medical Examiner Meigs Mr. Healey decided to make interment this afternoon. Consequently the body was laid to rest in Potter's field in the Edson cemetery. Medical Examiner Meigs and Undertaker Healey were both agreed that the man was so battered and disfigured that his closest relatives could not identify him, and so they decided it was useless to delay burial any longer. Comparatively few people visited the undertaking establishment to view the remains.

If you want help at home or in your business, try The Sun "Want" column.

### No Rebuttal Offered

The government had no rebuttal to offer.

Henry F. Hurlburt, counsel for Wood, requested that the jury be excluded and then asked the court to tell on what issue the case was to go to the jury. The district attorney replied that the indictment was a general charge so that the jury could bring in a verdict either under the general complaint or under any count.

### Indictment Reviewed

The indictment was reviewed, count by count by Judge John C. Crosby who asked the district attorney if all the evidence in the case did not indicate there was no intention on the part of anyone to injure buildings or other property.

Mr. Pelletier said there was no malice but that the possibility of careless handling of high explosives should be considered. He argued that the six counts amounted to different descriptions of the same alleged illegal act.

### All Counts Different

"Assuming, Mr. District Attorney," said Judge Crosby, "that all these counts are different, descriptions of the same general act, what is the objection to having the jury consider just one count, for instance, the first? The first and second counts charge conspiracy to injure the cause of the strikers. The other counts charge conspiring to injure certain individuals as well as to injure property."

Mr. Pelletier said it was customary to have several counts and it was presumably for the purpose of assisting the jury.

Mr. Hurlburt said that while the first two counts were practically the same, the other four counts charged an entirely different offense. He argued that the evidence did not support any count of the indictment charging conspiracy to injure any specific person or thing by placing dynamite. No unlawful purpose has been shown by the evidence, he declared, and he quoted from the testimony of Breen to show that it was not the intention to injure anyone but merely to frighten the strikers.

"I am pretty clearly of the opinion," said Judge Crosby, "that this indictment sets up distinct offenses and it seems to me it would be an error for the jury to return a general verdict on all these counts. If this case should go to the jury the jury should return a separate verdict on each count. The jury should not return a general verdict where six different offenses are charged."

The court reserved decision until the afternoon session on the question whether the jury return a general verdict, verdicts on each separate count or on having the issue go to the jury on one count only.

**Separate Verdicts**

Judge Crosby ruled that separate verdicts must be rendered upon each count of the indictment. He said he would instruct the jury to disregard the sixth count, which charged conspiracy to injure certain buildings and other property since no evidence had been offered to support that charge. District Attorney Pelletier said he was willing to not press the sixth count but Mr. Hurlburt objected and said he would ask the court to instruct the jury to return a verdict of not guilty on that count.

Mr. Hurlburt then asked for a ruling regarding the pendency of the alleged conspiracy, saying it was a question of law rather than of fact. Mr. Pelletier argued that in this case it

## MANY DIVORCES ARE GRANTED

Mrs. Louise McLaughlin Married Last Jan. Gets Permission to Resume Maiden Name

The jury waived session now holding at the court house in Gorham street will have completed its list here by tomorrow afternoon when the session will be closed. There have been tried a large list of cases before this court during the past week or two, and very many divorce suits were decided.

Among the last of the divorce suits tried before Judge Jenney yesterday afternoon was that of Louise Read McLaughlin against John C. McLaughlin, the libellant being granted a decree nisi against her husband on grounds of cruel and abusive treatment. The couple were married at Putnam, Conn., on the 29th day of January of this year. Libellant was granted permission to assume her maiden name, Louise Read. Mr. McLaughlin did not appear.

This morning a decree nisi was granted in the case of Lena B. Fairbanks vs. Lester B. Fairbanks for desertion. This was the last of the divorce cases to be tried before this session.

The next case called was that of Dora Strogoff vs. Peter J. McGauvran et al., an action of contract or tort in which the plaintiff charges that on April 22, 1904, for a consideration, she stored books, furniture and other household articles with the defendant and that the defendant allowed a large part of the property to become damaged, lost or destroyed, to the great damage of the plaintiff. The

second count of the declaration was similar to the first while the third count charged the defendant with converting to his own use certain books, furniture and household goods. Answering the defendant filed a general denial of the material allegations brought by the plaintiff. William Hagan represented the defense with Isaac Harris for the plaintiff.

**Superior Civil Session**

The superior civil session at the court house, presided over by Judge Pratt, is at present occupied with the trial of the case of Lyons vs. Boston Elevated railway in which the plaintiff claims \$25,000 for injuries alleged to have been received through the defective construction of an engine of the company. Among the chief witnesses heard thus far have been Mr. Ernest Lyons, the plaintiff, and a Boston lawyer who examined the engine. There has also been expert testimony and it is said that when the defense opens its case the testimony of the experts will be resorted to in great measure.

Medical experts were called to testify this afternoon in the case of Ernest Lyons vs. Boston Elevated railway. They were directly examined by Lawyer Mullin of the plaintiff's counsel and cross questioned by Attorney Drew for the defense. It is probable that the defense will open its case tomorrow when it is thought the plaintiff's case will be complete.

## LARCENY OF \$75,000

Publisher Fox Finds a Big Shortage

NEW YORK, June 5.—George Oxx, business manager of the Police Gazette, and Adolph Chudoba, another employee, were arrested today on warrants charging grand larceny in the second degree. Richard K. Fox, publisher of the Police Gazette, alleged that a shortage of \$75,000 to \$75,000, extending over a period of years, had been found on the books.

### STRUCK BY SHAF

Joseph Levesque Suffered Painful Accident at Beaver Brook Mill in Col. Huxville

Joseph Levesque, aged about 30 years and residing at 818 Lakeview avenue, suffered a very painful accident at the Beaver Brook mill in Col. Huxville where he was employed late yesterday afternoon.

The young man was working in the mill when a piece of shafting snapped off and struck him with force on the head. His wounds were dressed at the mill and Mr. Levesque was sent home in a carriage. Later, however, the ambulance was summoned and the injured man was removed to the Lowell hospital where it was found he was suffering with an ugly scalp wound. He will be confined to the institution for a few days.

Mrs. Matilda Zetterman of Carlisle road, Chelmsford, will spend the next two months in Amsterdam, N. Y.

## SOME GOOD ONES LEFT

If you have any intention of locating in the new Sun Building, Lowell's only modern ten-story fireproof building, in the heart of the business section, now is the time to secure a reservation. Some of the best offices are still vacant. There are no poor offices in the building.

Bookings are being made daily. Get busy or you may get left.

Special inducements offered to desirable tenants.

BUILDING MANAGER

Room 201. Tel. 4102.

## ADDITIONAL TAX ASSESSMENTS

To Provide Money for Lowell Textile School—\$7000 for Barn Voted—

J. E. Hill Retired on Pension

At the regular meeting of the municipal council held this forenoon in the old council chamber at city hall, the matter of instructing the assessor of taxes to make additional assessment this year in order to provide money for the Lowell textile school, was taken up and an order to that effect was adopted. The trustees of the school ask for \$9000 this year which is \$1000 more than the school asked for or received last year. The reason for asking more money is because of the increase in the number of pupils.

The council voted to borrow \$7000 for the erection of a new barn at the Chelmsford street hospital and the \$20,000 loan order for painting and repairing bridges went over to the next meeting. The matter of appropriating money for Lucy Larcen park and the Greenhalge school playground

will be taken up at the next meeting.

Mayor O'Donnell called to order at 11.30 o'clock and read the resignation of James E. Hill, collector of samples of milk, the matter having been referred to the mayor at a previous meeting.

Mr. Hill asked to be retired on the pension list and the mayor recommended that the petition be granted.

In order to retire Mr. Hill it was

Continued on page seven

## SEN. FISHER PRESIDED

At Session of Senate—R.  
R. Bill to 3rd Reading

BOSTON, June 5.—When the senate session opened Senator Fisher of Westford presided in the absence of President Greenwood.

These reports of committees were read:

Municipal Finance—Ought to pass in new draft, a bill to authorize the Boston street commissioners to widen Washington street from Lagrange street in West Roxbury to Forest Hills square.

Ways and Means—Reference to next general court of the public opinion bill of the American Federation of Labor.

On motion of Senator Stearns of Cambridge the rule was suspended and the senate concurred in the adoption of the house amendment adding the referendum to the Cambridge school apportionment bill.

Gov. Foss' veto of the bill to raise the pay of the state house firemen was read and on motion of Senator Mack of North Adams action upon the same was deferred to next session.

Sensor Stearns of Cambridge withdrew his amendment to the bill to establish tolerances in weight in the sale of commodities, and the bill was ordered to a third reading on a voice vote which was not disputed.

Sensor Horan attacked the bill to incorporate the Saugus river Land company, calling attention to a defect in it.

Sensor Bagley said the bill had been declared to be in proper form, but on his motion further consideration was ordered to the next session.

In the senate yesterday afternoon the railroad control bill, creating the new commission on transportation, was ordered to a third reading, 19 to 2, in the precise form in which the house sent it along. The two senators voting against it were Hersey of Hingham (who wanted at least companies exempted) and Halley of Lawrence (who wanted the financial sections, 15 and 16, eliminated from the bill).

The three amendments recommended by the senate ways and means committee were easily defeated.

The overwhelming vote in favor of the bill in the house and senate indicates that it would not be a difficult thing to have the measure passed over the governor's veto. If his excellency should return the measure without his approval.

As was expected, the Boston fire hazard bill was rejected. The senate first adopted the several amendments heretofore offered by Senators Allen and Montague and then rejected the measure on a voice vote.

The monthly ticket bill was rejected, 6 to 5, and there was no roll call. The expected contest of the western brothers bill didn't materialize. It was passed to engrossment, 15 to 2, on a rising vote.

The upper branch wasted no time on the dentistry reorganization bill, which embodied the Michigan plan, which certain persons wanted to "try on" Massachusetts. The bill was referred to the next general court and without discussion.

The house reconsidered its vote of Tuesday to reorganize the state board of health and then killed the bill by vote of 109 to 107.

## \$10,000 In Attachments

BOSTON, June 5.—Three attachments aggregating \$10,000 have been filed against Shigeyiro and Sadajiro Yamakawa, members of the Japanese nabiki & Co. dealers in Japanese goods at 115 Boylston street, in the Suffolk county registry of deeds. The actions come as an aftermath of the litigation which has been carried on in the Suffolk county courts for several months, in which the remarkable collection of Japanese idols, gods and relics owned by Joseph M. Wade, late of Columbia, R. I., was the bone of contention.

## Doctor Tells How to Shed Bad Complexion

We cannot restore degenerated facial tissue any more than we can restore a lost limb. It is useless to attempt to convert a worn-out complexion into a new one. The rational procedure is to remove the complexion instead of remove the degenerated tissue. Not by surgical means, however, as the underlying cutis is too thin, too tender to withstand immediate exposure. Applying ordinary mercurized wax will gradually absorb the offending cuticle. By degrees, a new, youthful skin appears, a skin soft and delicately tinted as a rose petal.

No lady need hesitate to try this. Prepare an ounce of mercurized wax of the drugist. Spread on a thin layer before retiring, removing this in the morning with soap and water. In from one to two weeks the complexion is completely transformed.

An approved treatment for wrinkles is provided by dissolving an ounce of powdered salicylic acid in a half-pint of water. Boiling the face in the solution brings prompt and remarkable results.—Dr. Rupert Mackenzie in Popular Medicine.

Light weight garments easily wrinkle and light colored fabrics quickly soil. But here's where we come in. Just send your clothes to the Dillon Dye Works and we will put them in perfect condition. Free from wrinkles and soil. The cost is small, but the effect is great!

If you haven't, try us once!

## MRS. P. NOE BRUNELLE INJURED AT BALL GAME

Funeral Services at St. Joseph's Church  
Verdict of \$321

The remains of Mrs. Pierre Noe Brunelle were tenderly laid to rest in the Catholic cemetery this morning after impressive services at St. Joseph's church. The funeral cortege left the home of the deceased, 37 Pond street, at 8:30 o'clock and wended its way to the church, where at 9 o'clock a solemn high mass of requiem was celebrated by the pastor of the church, Rev. Chas. Paquette, O. M. I. He was assisted by Rev. Avite Amyot, O. M. I., an deacon, and Rev. L. A. Nolin, O. M. I., as sub-deacon. There was a large congregation present, showing the esteem in which the deceased was held. Among those present from out of town were: Mr. Joseph Brunelle of Manchester, N. H.; Mr. Arsene Brunelle of Mansville, N. H.; Mr. and Mrs. Severin Bousvert of Quebec, Mrs. Cushman of Winthrop, Mass., and Mrs. Emma Plante of North Dakota. Seated in the sanctuary were: Rev. James J. McCarthy, O. M. I., and Rev. J. J. McCarthy, O. M. I., both of Tewksbury.

The choir, which was augmented for the occasion by members of various church choirs, rendered Perreault's harmonized mass under the direction of Telephone Mulo, the solos being sustained by Ernest J. Dumont, Dr. George Giroux and E. J. Laroche. At the offertory David Martin sang Leybach's "Pie Jesu," and at the communion John J. Dalton rendered Rosow's "O Meritum Passionis." While the body was being borne from the church the choir rendered "The Goodbye," the solo being sustained by Edward Shea, Mrs. Joseph A. Bernard presiding at the organ.

The bearers were Stephen Rochette, Joseph Routhier, Hubert Turcotte, Joseph Brunelle, Joseph Harvey, Joseph Champagne and J. B. Richard. Among the beautiful floral offerings, which literally filled a barouche, were large pieces sent by the following: Husband and children, Mrs. Emma Plante, Dr. and Mrs. Pierre Brunelle, Mrs. Melvina Brunelle, Miss Elodie Brunelle, Miss Grace Knowles, James Cahill, Donat Brunelle, William Liston, Charles Curry, Edward Crowley, J. Gendreau, Joseph Doyle, William H. Potter, D'Amour family, Lowell Drug Exchange, J. Edward Burns and sisters, Routhier & Delisle, Lewis Keith, Francis Woodman, Katherine McCarron, Mary Murphy, Rose Conroy, Alice Excor, Stephen Rochette, E. Kervin, John McManus, Mrs. Yeast and Mrs. McDonald.

Burial took place in the family lot in St. Joseph's cemetery, where the committal prayers were read at the grave by Rev. Henri Watelle, O. M. I., pastor. Funeral arrangements were in charge of Undertaker Amedee Archambault.

## Spend Your Holiday on a Western Ranch

Out in the ranch country of the West, around Sheridan, Wyoming, or in the Big Horn Basin of Wyoming, where Buffalo Bill founded the town of Cody, the practice is growing for the good, big hearted sportsmen and I don't know any more interesting and pleasurable way of spending one's vacation with the wife and children, than to go out on one of those ranches, and ride and fish for trout, (great fishing out there) and eat good, plain, substantial food, and sleep—my! how one does sleep after days spent exercising in that wonderful mountain air. This "Ranch Vacation" is a novel idea, but very easy to accomplish, for I can tell you all about what you can do and how to do it and what it will cost and what you can get and all about it. Just write and let me suggest a plan for you to follow.

ALEX. STOCKS, New England Pass. Agent, C. B. & Q. R. R. Co., 264 Washington St., Boston.

Fishing Tackle, Poles, Lines, etc.

Thermos Bottles.

THE THOMPSON HARDWARE CO.  
254-256 MERRIMACK STREET.

## NEW I. W. W. CIRCULAR

Stirs the Milford Mail  
Authorities

MILFORD, June 5.—There is every probability that the federal authorities will be asked to take action as to one phase of the Draper strike here on account of a circular deposited here yesterday in the Milford postoffice which was brought to the knowledge of the state police. Capt. W. H. Proctor has charge of an investigation of the matter.

The circular is a list of 100 workers who are alleged to have deserted the strikers' ranks, and their names and addresses are published therein, with a statement of the Hopdale strike. It is being sent, if practicable, to every I. W. W. local in the United States with sinister recommendation. The intent of the senders is very evident. The state police are naturally very reticent as to their plans or information.

A new line of aggressiveness was adopted yesterday morning by the I. W. W. management of the Draper strike. A circular was distributed among strike sympathizers. In hundreds yesterday, and some of the phrases used are regarded here as extreme enough to alarm business men. The circular bears the seal of the I. W. W. and is printed in English and Italian, addressed "To the Laborers." Its first sentence is:

"The violence, the abuse is at the order of the day. The law is violated, the law that permits us to talk with strike breakers has been trampled on."

Other paragraphs are:

"Laborers! At the repetition of these facts, at the insults that the authorities, the press, and that the Drapers every day throw to us, to you, now it is the duty, that is, to know how to demonstrate that we are not disposed to support their insults, but we intend to make them swallow them, preparing even from today for a general strike and with refusing decidedly to pay any kind of tax to the community."

"This must be from today our standard, so that we may give our brothers strikers more freedom, and until they have understood that Italians, Poles and Armenians intend to be respected."

"Comrades! The moment is serious, the solidarity of all of us is necessary in order that the curse sent by the dead brother may be united to the curse of Emilio Bacchilechi's children, and the strength complete, of all of us, with a general strike."

"Comrades! Let us be prepared, let us agitate and loudly cry that we will pay no more taxes and that at one sign from the committee we will all leave the shops, because the cause of Hopdale is the cause of us all."

"Saluting you with a cry of triumph for the general strike."

It is signed "The Committee for the general strike and for the refusal of taxes."

## SAVES BOY IN WATER

Lad of 12 Rescues His Chum of 14

To Grand Jury Session at Revere—One Woman Held in \$500 on Charge of Trying to Thwart Justice

REVERE, June 5.—The Revere tax scandal was revived again yesterday with a secret grand jury session and the serving of a writ of summons for witnesses at the trial of Assessor Samuel A. Segge on June 11.

Though secrecy was maintained about the summonses, news of their distribution in Revere and Chelsea crept out, and many of those summoned admitted during the evening that they had been called.

On the request of Asst.-Dist.-Atty. Thomas Laville, who argued that she was trying to thwart justice, Mrs. Ida McLeod of 158 Mountain avenue, Revere, was held in \$500 by Judge Brown to appear at the Segge trial.

REVERE, June 5.—William Sheridan, aged 12, son of Mr. and Mrs. Robert Sheridan, Stoneham, swam 300 yards across Lake pond yesterday in that town, and saved Harold LeBrun, two years older, from drowning.

Sheridan, with several comrades, was swimming at the pond when he heard the cries of LeBrun, who had been seized with a cramp. He immediately started across the pond, and got to the boy, who is much heavier than he, just in time to save him from sinking.

The bewildered swimmer attempted to hold Sheridan and hinder his work of rescue, but the 12-year-old life-saver clutched from behind and held him above water until George Hultgren, 16, arrived and assisted the two exhausted boys from the pond.

LeBrun was in a serious condition last night, but it is expected that he will soon recover.

## PHYSICIAN IS ARRESTED

Grand Jury Issues Capias After Death

WAREHAM, June 5.—Following an investigation into the death two months ago of Guy H. Craig, aged 25 years, Dr. J. A. Eldredge was arrested last night by Deputy Sheriff J. W. Hurley on a charge of manslaughter.

Grand Jury Order

The arrest was made on a grand jury capias issued in Plymouth yesterday. Craig, who was a street railway employee, died suddenly. It is alleged, after receiving treatment from Dr. Eldredge. Owing to circumstances surrounding the case, which puzzled the authorities, an investigation was begun by Plymouth county officials.

## AS BAD FOR TEACHERS

Governor Foss Vetoes Tenure of Office Bill on Ground That It Would Promote Inefficiency

BOSTON, June 5.—Pronouncing the measure bad for the best interests of teachers and not good for the schools, Governor Foss yesterday vetoed the bill providing that after five years' service no teacher in any public school in Massachusetts shall be removed until charges have been preferred and a hearing given.

"The efficiency of our teaching force is maintained and must be maintained by a sort of weeding-out process, whereby teachers whose usefulness has diminished may be promptly eliminated," said he in his message to the legislature.

"This bill will make it practically impossible for a school committee to discharge a teacher who has completed five years of service. Inasmuch as a teacher under this bill cannot be discharged except on certain rigidly defined lines, it is obvious that the gradual letting down of his efficiency will not lead to his dismissal, because this sort of personal deterioration is irrefragable and cannot be expressed in technical charges supported by affidavits, such as would hold in a case of law."

CABOT STREET SCHOOL

Fete Day at Planting a School Garden

by Dr. Bagley sub-committee man of the school. The Cabot street school will soon have an attractive school garden. Instead of a yard of cinders, stones and sand, since the arrival of a load of loam and a set of garden tools the boys have worked hard and willingly and yesterday afternoon the entire school had a fete in the new school garden and every child planted a seed. Especially were the seeds appreciated as they were given by the late Miss Seales. The program of the day included the planting of seeds and an entertainment by the children. The children were trained by Miss Mary

Whelley and her assistants, Miss Eugenie Hogan and Miss Mary Murphy. The program was as follows: Song, Third Grade; "A Little Plant," Hector Wainville; song, "Flowers," First Grade; song, Second Grade; Little Brown Brother, Tyvonne Morin; and yesterday afternoon the entire school had a fete in the new school garden and every child planted a seed. Especially were the seeds appreciated as they were given by the late Miss Seales. The program of the day included the planting of seeds and an entertainment by the children. The children were trained by Miss Mary

## MANY JUNE WEDDINGS

Took Place in This City  
Yesterday

In the rectory of the church of the Sacred Heart yesterday afternoon Miss Mary J. Fay, only daughter of Mr. and Mrs. Frank Fay of 10 London street, was married to Mr. John J. Begley, a prominent Day Stage railway man. The ceremony was performed by Rev. Felix McCarthy, a cousin of the bride, who came from his parish in Omaha, Neb., to marry Miss Fay. The bride was assisted by Mrs. Mary Foley Leary, another cousin, who now lives in Springfield, while the best man was Mr. Timothy Begley, a brother of the bridegroom.

Attired in a costly white duchess satin embroidered net gown with crystal trimmings, wearing a handsome white picture hat and carrying a magnificent cluster of bride's roses, Miss Fay looked charming as she and the rest of the party left the rectory for her new home. Mrs. Leary's gown was a blue messaline with overdress of Irish point lace. She wore a white picture hat and carried a bouquet of red roses.

A wedding dinner was served at the home of the bride, where in the tastefully decorated dining and music rooms the young couple received their friends. After the dinner the gathering was entertained with music, song and story until a late hour. The entertainment was provided by some of Lowell's most talented artists. Among those present were many friends of the bride and groom from Lawrence, Springfield and Boston.

Mrs. Begley's gift to her bride was a gold watch, while Mr. Begley presented the best man with a diamond pin, to serve as a happy reminder of the occasion. So numerous and costly were the presents which the young couple received that these will completely furnish their new home, which is located at 10 London street. The bride's parents set apart the upper section of their beautiful home for the young couple, and the six rooms which compose the apartment are elaborately appointed and furnished.

Mr. and Mrs. Begley left for New York during the evening, at which city they will stop for a time, later going to Washington. They will return to Lowell in about a month.

## SMITH-CORNFELD

Mr. Henry J. Smith and Miss Margaret M. Cornfield, two well known young people of this city were united in marriage yesterday afternoon at half past four o'clock at St. Patrick's rectory by Rev. Joseph A. Corbin. The bride was attended by her sister, Miss Christina Cornfield and the best man was Mr. Matthew H. Foley. The bride was charmingly attired in a gown of white chiffon over white satin and carried bride's roses. The bridegroom wore blue cloth trimmed with shadow lace, and the best man wore a suit of gold and blue. The bride presented a pair of gold cuff links to the best man.

Following the ceremony a wedding supper was served at the home of the bride and a musical concert was furnished by Clark's orchestra. The young couple were the recipients of numerous beautiful wedding gifts from relatives and a large host of friends. They left on a honeymoon trip and will visit Providence, R. I. and New York City, returning about July 1 when they will be at home to friends. The ushers at the wedding were Raymond Lynch and Daniel Shea. There were present a number of out of town guests.

## DECATUR-DRAPER

Mr. Nathaniel J. Decatur, Jr. and Miss Etta M. Draper were married last night, the ceremony being performed at the home of the bride's parents, Mr. and Mrs. Arthur A. Draper, 106 A street, the officiating clergyman being Rev. Mr. Trites of the Chelmsford Street Baptist church. The young couple was attended by Miss Louise Best and Mr. Herbert Draper. At the close of the ceremony a reception was held, with Miss Gladys Storm at the piano.

The refreshments were in charge of the Misses Winnifred Gruber, Mabel Lang and Iva Bardsley, while the

ushers were Daniel Hinckley and Lewis Duncan.

Among the out-of-town guests present were Mr. Hiram Decatur of Haverhill; Mr. and Mrs. B. J. Decatur and son, of Westford; Mrs. William Walker and daughter, of Northampton; Mr. and Mrs. Bert Williams of Boston; Mr. and Mrs. Draper and son of Bradford; Mrs. Emma Spaulding of North Adams; Mrs. Crossman and daughter, of Boston; and Mr. Joshua Decatur of Chelmsford.

## MCNIERNEY-FITZGERALD

The marriage of Patrick McNierney and Miss Margaret Fitzgerald took place last night at St. Michael's rectory, Rev. Francis T. Mullin officiating. The witnesses were Miss Mary Fitzgerald and James Qualey.

## CARROLL-SMITH

Mr. John Carroll and Miss Mary Smith were united in marriage yesterday afternoon, the ceremony being performed at the Immaculate Conception rectory by Rev. Lawrence Tighe, O. M. I. Miss Mary McManis was the bridemaid, while the best man was James Carroll.

## BROWN-KENFIELD

Harrison G. Brown, formerly of this city, and Miss Hazel L. Kenfield of Worcester were married at the latter place. The happy couple are now camping at Boplist pond.

## HOVEY-MUNN

Mr. Philip Rogers Hovey, who is engaged in the real estate business in Boston, but whose home is in this city, and Miss Gertrude Slunwood Munn, daughter of Mr. and Mrs. Francis Dwight Munn, were united in marriage last evening at 7 o'clock at the home of the bride's parents, 105 Eleventh street, by Rev. Edward H. Newcomb, pastor of the First Congregational church. Only members of the immediate families attended the ceremony. Miss Mary Upton Munn, a sister of the bride, was maid of honor, and Mr. Ernest M. Parsons of Brookline, was best man. After an extended wedding trip, Mr. and Mrs. Hovey will make their home outside of Boston.

## WEBSTER-TRUEWORTHY

The marriage of Mr. Harold O. Webster and Miss Ethel P. Trueworthy took place last night at the home of the bride's mother, Mrs. A. M. Trueworthy, 252 West London street, the officiating clergyman being Rev. Theodore Lyman Frost, S. T. D., and the double ring service was used. At the close of the ceremony a brief reception was held.

## CARPENTER-TRACY

The marriage of Mr. George Lewis Carpenter and Miss Mary Elizabeth Tracy was solemnized last night at the rectory of St. Michael's church, Rev. Fr. Shaw officiating. The bride carried a bouquet of American beauty roses. The witnesses were William Holland and Miss Nellie McCutcheon. After the ceremony a reception was held at the home of the bride's parents at 49 Ottawa street. Mr. and Mrs. Carpenter were the recipients of many useful and costly gifts. The couple left last night on their wedding tour which will include New York and Washington, after which they will reside at their new home in Mt. Vernon, N. H.

## BOURKE-O'HARE

The marriage of Mr. Patrick Bourke and Miss Mary O'Hare took place yesterday afternoon at the rectory of St. Peter's, the ceremony being performed by Rev. Fr. Mullin. The young couple were attended by Mr. Peter Bourke and Miss Rose O'Hare, sister of the bride. The bride wore white serge and carried bride's roses. Following the ceremony, a reception was held at the home of the bride. Mr. and Mrs. Bourke left after the ceremony on the 9:45 train for Boston, New York and Providence, and will return Saturday to their home, 15 Cedar street, to bid farewell to their friends before leaving on June 10th for a trip to Ireland.

## Harmless Duel

PARIS, June 5.—A harmless duel was fought yesterday by two artillerymen of Paris, Paul Hervieu, the Academician, offended by a critical paragraph, which appeared in the Action Francaise, sent a challenge to Leon Daudet, the chief editor of that paper, who accepted.

The couple met yesterday at the Parc des Princes and fought with pistols. Four shots were exchanged, but neither of the combatants was touched, and a reconciliation was then brought about.

HALL'S  
Refrigerators

## POST 185, G.A.R. MEETING

Arrange for Memorial Services Next Year

The regular meeting of the Ladd & Whitney post, 185, G. A. R., was held last night at their rooms on Central street. Besides the regular business votes of thanks were extended to Camp 78, Sons of Veterans, and Mary E. Smith tent, Daughters of Veterans, for their assistance during memorial week; Circle 5, Ladies of the G. A. R., for their bountiful supper on the afternoon of Memorial day; town of Tewksbury for their usual cordial greetings; Rev. Miss Dixon for her fine oration, the patriotic exercises and the generous collection that followed; St. Paul's church for the excellent sermon of Dr. King, the fine organ recital and beautiful decorations on Sunday morning; and to Commander Derby and all others who furnished their automobiles. Past Commander Jason E. Coffin was admitted by transfer from Post 11, Milford, N. H., to this post. The post voted to attend the Memorial service at the Grace Universalist church in May, 1914. The members also voted to meet but once monthly during the months of June, July and August.

## Sues For Lost Love

BOSTON, June 5.—Papers were served yesterday afternoon on Henry J. Woodberry at his home, 58 Humboldt avenue, Roxbury, as defendant in a \$25,000 breach of promise suit brought in behalf of Miss Margaret Clarke, who resides with her mother and two sisters in the Back Bay.

## Indicted for Murder

PLYMOUTH, June 5.—The Plymouth county grand jury reported yesterday afternoon to Judge Henry A. King at the county courthouse a large number of true bills, chief among them being one against James H. Sutherland, of Whitman, an ex-convict, charged with murder in the first degree of his wife, Winifred Sutherland, April 28. The indictment includes five counts, alleging death to have been caused by striking the woman over the head with a chair and also pouring scalding water over her head and body, from which cause she died. Another series of indictments of general interest are those against William C. Butler for forgery at Wareham. Butler was charged with committing a wholesale series of forgeries in and about Wareham last October and was finally apprehended, and the grand jury found no less than 10 counts against him. He was not arraigned.

## JILTED LOVER SHOTS

Killed Widow Because She Refused to Marry Him—He Has a Wife and Children

NEW HAVEN, Ct., June 5.—Angered at her refusal to marry him, the police believe, Joseph Bergeron yesterday shot and killed Mrs. Elizabeth Dowsett at her home here. Dr. four shots into her body. She was about 40 years old, a widow and leaves three children, the youngest two years old. Bergeron, who was arrested soon after the shooting, is said to have a wife and several children in Springfield, Mass.

## Seven of I. W. W. Sentenced

PEORIA, Ill., June 5.—Seven Industrial Workers of the World, who went on a "hunger strike" in this city jail here and broke the dishes which were given them, were yesterday fined \$200 and costs by a jury in the city police court and sent to the workhouse for six months. The prisoners told the police that two more bands were headed for Peoria. They have abandoned the hunger strike.

## Best Laxative for the Aged

Old men and women feel the need of a laxative more than young folks, but it must be safe and harmless and one which will not cause pain. Dr. King's New Life Pills are especially good for the aged, for they act promptly and easily. Price 25c. Recommended by A. W. Dows & Co.

## SHAKES FIST IN COURT

Millionaire Clashes With United Shoe Head

BOSTON, June 5.—Jackson Johnson, president of the International Shoe company, a \$25,000,000 corporation of St. Louis, on stepping down from the witness stand in the United States district court yesterday, shook his fist in the face of the defendant, Sidney W. Winslow, president of the United Shoe Machinery company, which the government is seeking to dissolve.

A recess had been declared and the millionaire witness was about to pass the millionaire defendant when the two men met, glared and entered into a lively discussion of their attitude in the case.

The three judges presiding had left the bench, but the millionaire disputants, both husky and aggressive looking individuals, were well within the precincts of the court room when Johnson was seen to point his finger at Winslow and then brandish his fist in the latter's face while he talked excitedly to him. For a time it looked as if there might be a lively outcome and a crowd gathered round the two millionaires.

Johnson's attitude continued threatening and one of the court bailiffs was

requested by an officer of the United company to keep close to the excited men. Mr. Johnson cooled down a bit and then withdrew to the corridor, where the conversation was resumed in rapid fire order, but in an undertone. Before they parted, however, they smiled and shook hands and the threatening incident was closed pleasantly before the court proceedings were resumed.

## MISS DEVINE'S PLAY

Very General Demand For Its Repetition That The Public May Have a Chance to See It

There is a very general demand throughout the city for a repetition of Miss Devine's play which was presented at the Opera House a little over a week ago. Although the house was packed on that occasion, yet the audience was mainly made up of the school teachers and their friends. The general public should have an opportunity to witness the presentation of this original and thoroughly instructive play. It marks Miss Devine as a lady of very considerable talent as a dramatic writer, and, judging from her acting on the stage in the title role of her own play, she is also an amateur actress of no mean ability.

If Miss Devine's play be properly handled, copyrighted, published and put before the theatrical managers of the country it may prove to be the "Uncle Tom's Cabin" of the suffrage movement.

## Commercial Travelers Meet

RUTLAND, Vt., June 5.—Welcome to this city by Mayor Henry Brislin, the commercial travelers of New England opened a three days' convention in Rutland today. The sessions today were devoted to business. Tonight the members will be the guests of the business men of the city.

If you want help at home or in your business, try The Sun "Want" column.

## Unique War Ship

WASHINGTON, June 5.—Plans for the submarine tender Bushnell made public by the navy department today disclose the fact that the vessel, not only is to be an entirely new type in the navy but will be altogether unique as a war craft. The contract for the construction of the Bushnell was awarded to a shipbuilding concern in Seattle, Wash. Her cost will be close to one million dollars and she is to be completed within 21 months.

## FREIGHT RATE INCREASE

While public opinion throughout the state now deplores the continual adverse criticism of the local railroads which was greatly responsible for the present unsatisfactory condition, it is very evident that this criticism has resulted in some good, one of its most direct effects being a desire on the part of the railroads to take the public into their confidence and explain their inner workings and designs in a degree heretofore unknown. Particularly significant, therefore, is the dinner to be given by the Boston chamber of commerce on June 12th, at which some of the greatest railroad heads in America, at their own request, will meet representatives of the commercial organizations of New England to seek redress for their suggested plan to secure a five per cent. freight rate increase from the interstate-commerce commission.

It is a further proof of the tremendous change in the mental attitude of the railroads that their side of the question will be sustained, not by legal representatives, but by President Brown of the New York Central, President Willard of the Baltimore and Ohio, and President Rea of the Pennsylvania railroads. This is the first time in the business history of the country that the railroads have taken such a satisfactory and intimate means of putting before the people their reasons for a suggested change, and as those present will be encouraged to protest, if they feel so inclined, and to ask all manner of questions, there is no reason why the meeting should not prove an unprecedented success. Although the ordinary meetings of the chamber of commerce are limited to members, each member is entitled to bring an interested friend to this dinner, and it is probable that the commercial life of New England will be well represented.

It is becoming generally recognized that the prosperity of the country depends on the prosperity of transportation interests just as much as the transportation interests depend on general prosperity. The railroads claim that the increasing cost of labor, supplies and all that concerns railroads makes it imperative that if the railroads are to be run on a paying basis, they must increase the present freight rates. While this is logical, there is also a limit to what business can stand, and many shippers believe that present rates are high enough or too high. Whether business men of this region would tolerate a flat raise of five per cent. or not remains to be seen, but until the matter is settled there can be no more satisfactory method of solution than the mutual exchanges of opinion which can be brought about by such meetings as the coming dinner of the Boston chamber of commerce.

## PRESIDENT SUPPORTED

Although those familiar with the history of senatorial investigations did not expect many incriminating disclosures from the lobby inquiry which has followed the strong accusations of this "insidious" lobby are being disclosed to the people in a new and significant light. The old time methods of direct corruption are discarded, or are very infrequent or carefully hidden, but even the everyday practices of life have been availed of by the interests who now strive to prevail on legislators by the allurements of social ambition, prominent business alliances, and ingratiating patronage.

This fact was borne out by the testimony of Senator Kenyon of Iowa before the senate investigating committee who declared that in his opinion no method of lobbying is more insidious and reprehensible than the practice of flatterers senators by having them out to dinner, theatre parties and automobile rides. To illustrate his accusations he pointed out the sworn testimony of one of the greatest lumber owners of the country to the effect that when the lumber schedules of the Payne-Aldrich tariff bill were being framed, he had entertained the senators to dinner in Washington hotels.

Although people in general throughout the country do not ascribe this mode of procedure to those who have a selfish interest in pending legislation, and though it may seem childish and overdrawn to the average individual, it may readily be seen that if generally used—and the declaration that it is based on facts—it would eventually result in many evil practices. Appearing as it does to a false sense of honor it would put senators under unwelcome and unwise obligations to those towards whom their relations as regards imminent laws ought to be abstract and impersonal. It is not so dishonorable as financial bribery, but its ends are quite as injurious to the cause of democracy.

Although the abuses of the lobbying practices described by Senator Kenyon are not of a nature easily regulated by law, the investigation will probably result in such a change of public sentiment as will make itself felt in national legislative circles. The tendency of the times is towards idealism in politics and people are not basing their ideas of what is right and what is wrong on the technical terms of prohibitive laws. The na-

tional conscience is awakened, and our legislators are expected to abide by the same broad rules of honor and honesty that govern, or ought to govern, the public actions of all the people indiscriminately.

## SAVE THE TREES

It is to be hoped that the recent meeting between the committee on trees of the park commission and representatives of three important public service corporations will bring about a better mutual understanding of mutual needs, and result in practical measures to prevent the disappearance and destruction of our trees, already disappearing far too rapidly. If it be true, as Mr. Carr asserts, that promises made by these corporations in the past have not been kept, it is high time that the city should show itself in earnest in the very important matter of the preservation of its trees.

All who are in the least interested in the beauty of the city are interested in its trees. Without them we would have little claim to beauty, and if the present carelessness and indifference continue we may be without them in a very short time. Unfortunately for the comfort of our future citizens, we do not consider the needs of coming times as did the more unselfish people who planted them, and as a result we are getting ready a Lowell, bigger and busier indeed, but devoid of one of its greatest charms.

Wanton destruction of trees, or carelessness in replacing those destroyed by municipal command, cannot be laid to progressiveness or a desire for economy. The cost of replanting is inconsiderable, and the most modern city planners include shade trees in plans for even the principal business streets. It is most desirable that the activity of the park department, and the renewed promises of the public service corporations should be regarded as evidence of a more general interest, and a promise of greater regard for the future preservation and replanting of our trees. By some it is claimed that the moth pests have had considerable to do with damaging some of our most beautiful city trees while others aver that the spraying with arsenical solutions has helped to kill many trees. The grand old elm on the park in front of Rogers Hall school was so badly cleared of bark and foliage by the elm beetle last year that it shows very little signs of life this year. Other noble trees have suffered in a similar way so that the park board if it means to protect the trees will have to look after more enemies than the electric companies.

## BASEBALL CAR SERVICE

The Bay State railroad will undoubtedly heed the recent protests of those who were inconvenienced by the unsatisfactory car service to Spaulding park on the occasion of a local baseball game, and it would be to the best interests of both the railroad company and the public that further dissatisfaction should not arise. There is little doubt in advance of the great number who attend these games, and the railroad cannot plead ignorance of conditions, or attribute the shortage of cars to an unexpected rush, as all of these things have been met with in former years, and ought to have been adjusted satisfactorily at the very commencement of the present season.

The most desirable change, of course, would be double tracks to the park. This outlay would pay even during the summer months. It is not probable, however, that such tracks will be laid, but there is no reason why there should not be sufficient cars to accommodate the crowds who patronize the ball games, regularly. The man who is disappointed and forced to either abandon the game or arrive late, is in the very worst humor to excuse the negligence or unpreparedness of the road, and all who love the national game will sympathize with the disappointed one. May his tribe decrease.

## BOARD OF TRADE

All who are interested in the welfare of the city, and familiar with the great influence for good that may be exercised by unselfish civic organizations, will rejoice that the annual meeting of the Lowell board of trade finds the organization in such a satisfactory condition as it is at present. All bills are paid, there is a good sum in the treasury, and the membership has increased until the desired number of 1000 ought to be a possibility in the near future.

Besides the positive good done by the Lowell board of trade in specific instances, its influence on the prosperity of the community is of such a nature that it is productive of much good that cannot be defined or shown to the doubting observer. It serves to eliminate business selfishness, creates a healthy public spirit, brings a healthy initiative into public affairs, and advances the city in the most desirable manner. It can be made subservient to public welfare in every respect, and as such it deserves the support and patronage of all who are sincere in the work of social and industrial uplift. May its influence for good continue.

If you want help at home or in your business, try The Sun "Want" column.

## Seen and Heard

Since the poultry and egg industry of Indiana and the other states has assumed the large proportions indicated by the two last national censuses, 1900 and 1910, there has been a demand for and growing interest in improved conditions and need for a broader knowledge of the underlying principles of the industry. The department of agriculture calls attention to the fact that the state agricultural colleges and experimental departments have given their attention to the various questions involved in the housing, feeding, breeding and general management of poultry, while the instruction departments have built up practical courses in this branch of animal husbandry and have also assisted in disseminating the knowledge gained from the results of experimental work.

One of the most important of these is the production and marketing of eggs. Every year there is a loss of millions of dollars in losses due to the result of haphazard methods of production, marketing and shipping that are now used in many of the states. The greatest part of this loss is due mainly to ignorance or indifference on the part of the farmer and producer, and only a small part is caused by carelessness on the part of the buyer and shipper. In many instances the buyer is directly responsible, for when he buys eggs by the case count system, as many of them do, he is encouraging the producer to be careless in gathering and marketing the eggs, since he pays him for anything that has an intact shell. The consequence is that the producer will not try to shield himself under this pernicious system, so it is much to his advantage to aid in the improvement of the commercial egg.

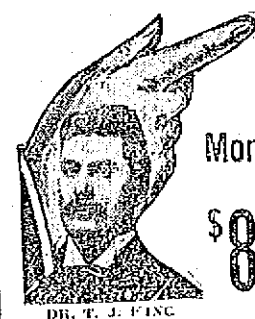

## WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

the department of agriculture says. He may not receive any extra compensation at the very start, but just as surely as he makes an organized effort to furnish the trade with strictly fresh eggs so surely will the competition in trade make it possible for him to dispose of his superior product at an increased profit.

With the view of determining the causes of the heavy loss in eggs and of working out methods for its elimination, the department of agriculture, through the bureau of animal industry, undertook a thorough investigation of the problem. Harry M. Lamon, junior animal husbandman and Charles J. Opperman, of the animal husbandry division, have agreed that if the following simple rules are adhered to by egg producers a high quality of product will be assured and a large part of the loss now experienced in the value of the country's egg production banished.

Give the hens clean nests; gather eggs at least once each day; keep eggs in a cool, dry place; kill or sell all mature male birds as soon as the hatching season closes.

THE ISLE OF LONG AGO  
(Published by request)  
Oh, a wonderful stream is the River Time  
As it flows through the realm of years.  
With a faultless rhythm and a musical rhyme,  
And a broader sweep and a surge sublime,  
And blends with the oceans of years.

How the winters are drifting, like flakes of snow,  
And the summers like buds between,  
And the years in the sheaf—so they come and they go  
On the rivers breast with its ebb and its flow.  
As they glide in the shadow and sheen.

There's a magical isle up the River Time,  
Where the softest of airs are playing,  
There's a cloudless sky and a tropical clime,  
And the Junes with the roses are staying.

And the name of the isle is Long Ago,  
And we turn our backs to the shore,  
There are fountains of beauty and fountains of snow,  
There are heaps of dust, but we love them  
There are trinkets and tresses of hair.

There are fragments of song that no body sings  
And a part of an infant's prayer;  
There's a harp unswept and a lute  
There are broken vows and pieces of rings,  
And the garments she used to wear.

There are hands that are waved when the fairy shore  
By the mirage is lifted in air;  
And we sometimes hear through the turbulent roar  
Sweet voices we heard in the days gone before,  
When the wind down the river is fair.

Oh, remembered for aye he the blessed isle  
All the day of our life till night,  
And when evening comes with its slumberable while,  
May that Greenwood of soul be in sight.

—Benjamin F. Taylor.

## EDITORIAL COMMENT

Modern Dances  
Lynn News: The turkey trot and the tango are still being danced, and those who defend them say that it takes experts to dance them properly and that with all others they are likely to be immodest and perhaps even harmful, anything of which that is true is well avoided.

## An optimistic Message

Fitchburg News: If we have any green-eyed sufferers in Fitchburg from "raifitis," that weird malady that seems to be going the rounds just now, like the measles and similar childish ailments, we hope that they read the interview in last night's Daily News with Mr. C. Willis Bennett.

Mr. Bennett, who is a large manufacturer of shoes in this city, has just returned from a three-week trip through the great midwest, during which he visited a score of the largest cities, from Buffalo to Omaha, and from Wheeling to Duluth.

Mr. Bennett said we think well worth reproducing again in this column, because we want everybody in Fitchburg to read it. Here it is:

"Times are good in the west," said Mr. Bennett to the Daily News. "Business seems to be humming everywhere. I went around the shoe trade especially prosperous and my trip was most successful in every respect."

Fall River Bill Boards  
New Bedford Mercury: The Fall River newspapers are campaigning against bill boards. The city of Fall River through its chamber of commerce, is one of the chief offenders in Massachusetts. Its slogan, appearing upon bill boards all over the city, is "murder and kidnapping disfigurement of the landscape. The elimination of these bill boards is the reform that Fall River should first undertake. This it will be in a logical position to pluck out the mote of brother's eye."

No Audience  
Breckinridge Times: When one of the 1. W. W. leaders went forth to address a widely advertised mass meeting he found no audience. Was it because Philadelphia people were slow to gather, or because they were quick to take advantage of one of the best possible methods of discouraging tactics that damage industry.

End of War  
Woonsocket Call: There are nine foreign states that wish to look into the future peace plan in the hope of being able to subscribe to it. This is most encouraging. War is not dead, but the old war spirit is in a sad state of lowered vitality. It may be said to be approaching complete dissolution. That is to say, war as a national profession is disappearing rapidly. Rulers, subjects and citizens are anxious for the day when war will no longer be a means of aggrandizement. The old fondness for the chase of the pack is being eliminated from human nature.

The Circus  
Manchester Mirror: Students of human nature have tried for years and in vain to discover why men, women and children never tire of going to the circus to see the same kind of performance, hear the same jokes, their fathers heard, witness the same antics of the clown. It is useless to speculate. All that is really settled is that the circus has a hold on the people that nothing seems able to loosen.

Whof  
Newburyport Herald: Bishop Brent, coming across from England, the place for a citizen is with the common people. Who are the "common people," anyway?

TY-BELL SISTERS COMING  
Wonderful Human Battery Act to be Seen With Interesting Bros' Circus Which Comes Here Next Wednesday

The most beautiful and dangerous aerial feat ever attempted is the human battery act, a denial suspension performance now being presented by the Ty-Bell sisters of France with Ringling Brothers' circus. The big circus is billed to exhibit in Lowell, on Wednesday, June 11.

The human battery act is a new creation of a striking aerial novelty. Holding by the teeth to slender steel cords, three Venus-like girls are drawn to the dome of the tent. By means of intricate mechanism on the canvas roof of the tent they are enabled to dart, fly and circle through space with the infinite grace of birds. The audience of this sight is a thing of beauty. They are clothed in flowing robes of delicate colors, and their hair is spun glass, giving the spectacle an ethereal charm that is entrancing to beholders.

Though the beauty and the sublime spectacle of the performance are two powerful features, the great danger and the daring of the performance are not for a moment lost sight of. It is a thrill of the most indelible kind, inasmuch as it requires the strongest of nerves and a real heroism to accomplish it, not having to depend on exaggerated methods of the absolute protection of sure-fire machinery. There is real and not merely suggested danger in the act, which fact is evident on sight.

This is the highest-priced aerial act ever imported, and not in any way similar to the common-place specialties of the pageant wagons, or the "iron-horse" acts in disguise. This is the great performance which electrified Europe last winter, presented by the identical three girls. It alone is a feature strong enough to insure success to any circus. But the management does not stop there. Every one of the 375 headlines is a masterpiece in the arts of circus entertainment.

The big feature this year, and the most remarkable drawing card ever imported, is the newly added \$500,000 wordless spectacle, "Joan of Arc," which begins the regular performance. It employs 1200 persons, 800 horses and a trainload of special scenery. It is presented on the largest stage in the world, so big that all this assemblage of men, women and horses can be seen upon it in the grand ensemble scene while 300 girls are dancing.

This is something new for a circus to undertake. The expense is such that only a big concern like the Ringling Brothers could attempt it. It has served to increase the popularity of their show to an extent that additional excursion trains are run to every town visited. As an attraction it is equal in interest to the circus itself.

JOAN OF ARC—For breakfast it is not unusual for the many cooks with Ringling Brothers' circus hotel to make and serve 4000 pancakes at a single breakfast. The people with the circus, and there are 125 of them, eat the food used by the circus, the marketing being done by Steward A. L. Webb every morning.

with attached collars and French cuffs—sizes 12 to 14. Made for boys just as carefully as our men's Shirts are made—Madras, chambray and percales..... 50c to \$1.00

## DROPPED TO HIS DEATH

New York Dentist Fell  
From Eighth Floor

NEW YORK, June 5.—Dr. Stephen O. Storek, a dentist, 35 years old, was killed early today by falling from the eighth floor of an apartment house in West 58th street, where he lived with his wife and two children. Friends say that overwork has unbalanced his mind.

## AUSTIN'S BODY CREMATED

At Golders Green With-  
out Ceremonies

LONDON, June 5.—The body of Alfred Austin, poet laureate, who died on Monday, was cremated today at Golders Green without any ceremony, but by permission of King George a memorial service was held in the Chapel royal, St. James' palace, at the same hour. This service was attended by the members of the Austin family.

## PLANE PLUNGED TO EARTH

Two Occupants Were  
Instantly Killed

BUC. France, June 5.—The French airman, Auguste Bernand, and a passenger were killed today while flying at the aerodrome here. The aeroplane while at a considerable altitude suddenly plunged violently to the earth and was shattered. The cause of the accident is unknown.

## LOWELL EAGLES

Will Be Active in Athletic Meet of  
State Societies to Be Held During  
This Month

Lowell Aerie, fraternal order of Eagles are planning on making a big show in the state athletic meet that is to be held within a few weeks on the outskirts of Boston. The Lowell aerie will be represented in every event that is slated for that day, including the baseball game, and the local men believe that the team that beats Lowell will be a wonder, as they are making big preparations for these events. Worthington Flanagan, who has put much time and energy for the success of the Eagles, says that the same spirit prevails in the athletic section of the fraternity as has recently been shown in increasing the membership.

## NEWS OF BILLERICA

POLLARD SCHOOL EXERCISES TO  
BE HELD TOMORROW

Ladies of the G. A. R. Observed "Flag Day" Yesterday With Exercises in  
Odd Fellows Hall

"Flag Day" was observed at the meeting of the Ladies of the G. A. R. in Odd Fellows hall, Billerica, yesterday afternoon. After the business meeting at 2 o'clock, public exercises were given at which many friends and invited guests were present. John B. Lewis of Boston, National president of the patriotic instruction association gave a short address and there were remarks by Comrades Freeman and Langley of Post 154, Everett, Mass. A delegation of fourteen members from the circle of Hudson, N. H. was present as guests. During the afternoon a recitation entitled "Our Flag" was

given by Francis Corkum. Other numbers on the program were: Reading, Gladys Holden; piano solo, A. Merriam Smith; and exercises by the pupils of the Pollard school.

The work of the different classes of the Pollard school will be on exhibition at the school rooms for the remainder of the week and all mothers and friends of the pupils are cordially invited to inspect the work.

The graduation exercises of the Pollard grammar school will be held tomorrow afternoon and all are invited to attend. They will consist of exercises by the pupils in the secular class and members of the school committee will be present and speak.

## TAX ASSESSMENTS

Continued

necessary for the city to accept the provisions of chapter 157, acts of 1912, relative to retirement of veterans, and Commissioner Cummings moved the acceptance of the act and the retirement of Mr. Hill. It was so voted.

To Borrow \$7000  
The mayor read the \$7000 loan order for a new barn for the Chelmsford street hospital. It was explained that Street hospital. It was explained that not more than \$2500 of the \$7000 would be spent on labor, the rest going to material, lumber, etc. It was stated that about \$1200 was received as insurance on the barn that was burned last summer, and that amount was used for the erection of temporary quarters for the horses and cows. The order was adopted without opposition.

Hearings on Petitions  
The petition of the N. E. T. & C. Co. for permission to erect two poles on West Sixth street, between Coburn street and No. 55, was assigned for a hearing, June 24, at 11 a. m.

The same course was mapped out for other petitions by the same company as follows:

To erect one pole on West Sixth street, opposite No. 235.  
For permission to erect seven poles on Dingwell street between Middlesex street and Lowell Electric Light corporation's pole No. 1193.

For permission to attach additional wires and fixtures to its poles on Coburn street, between Richardson avenue and West Sixth street.  
For permission to attach additional wires and fixtures to its poles on Starbird street, between Varum avenue and Woodward avenue.

For permission to attach additional wires and fixtures to its poles on B street and New Spaulding street, White street, between Riverside street and No. 55; to poles of the Lowell Electric Light corporation on Cornell street, pole corner West Sixth and Beaulieu streets; to poles of Lowell Electric Light corporation on Woodward avenue, Courtland street, West Fifth avenue and corner of West Sixth and Beaulieu streets.

The petition of the Lowell Electric Light Corporation to attach its wires and fixtures to poles of N. E. T. & C. Co. on East Merrimack street, between the Concord river and Davidson street, and on Lakeview avenue, between Emmet street and Perry lane, were referred to the commissioners of streets and highways and public property and licenses.

Street Petitions  
The petition of the heirs of John Minahan that the concrete sidewalk in front of 4 Sargent street be accepted, was read and referred to the commissioners of streets and highways.

Petition of Mrs. Fred Rawnsley et al. that State street be macadamized and the edgstones reset.  
Petition of Francis D. Munn et al. that Blaventh street be resurfaced and oilied from Methuen street to Merrill avenue.

Petition of Mrs. Mary J. Callahan for abatement of sewer assessments amounting to \$50.82, against her property on Llewellyn street.  
Petition of Mrs. Ada M. Juddins that a sewer be laid in Hildreth street, northerly from Essex street to Orleans street.

To Keep Explosives  
The petition of James J. Norton for license to keep, store and use gasoline in the ground in rear of prem-

ises on Chelmsford street, corner of inland street, was referred to the commissioner of public property and licenses.

\$9,000 For Textile School  
A communication from the trustees of the Lowell Textile school, was read. The communication had to do with the payment of \$9,000 to said school, and accompanying the communication was a copy of the resolve, chapter 94 of the year 1913. The \$9,000 is required to provide for the calendar year 1913, an increase of \$1000 over the amount appropriated last year, the number of evening pupils residents of Lowell for the current year having increased from 439 the previous year to 522 for this year.

James T. Smith, clerk of the board of trustees of the Textile school, was present at the meeting.

Accompanying the communication was an order appropriating \$9000 and another instructing the board of assessors to raise the sum of \$9000 by the assessment of additional taxes for the year 1913.

The communication was received and placed on file and before the order was adopted, Mr. Smith explained the necessity of \$1000 extra for the school this year, quoting what appeared in the letter to the council.

The order for additional assessment of taxes to raise the \$9000 was passed and the order appropriating the money was assigned for consideration, June 15.

Social and Athletic Club  
In compliance with the request of Frank J. Donahue, secretary of the commonwealth, Mayor O'Donnell, in the matter of the application of Patrick P. V. McCarthy and others for incorporation under chapter 125, revised laws, as Princeton Social and Athletic club, investigated and reported that none of the incorporators have been engaged in the illegal selling of intoxicating liquor, or keeping places or tenements used for the purpose of illegal gaming, nor have they been engaged in any other business or avocation prohibited by law. The report was accepted and will be forwarded to the secretary of state.

Weights of Hay  
The applications of Frederick G. Humphries and William Manning for appointment as weighers of coal, hay and other articles were read and approved.

The order accompanying the report of Commissioner Donnelly for a sidewalk of edgstones and cinders or gravel on the westerly side of South street from Gorham street, northerly about 100 feet, was read and approved.

Lucy Larcom Park  
Mayor O'Donnell called the council's attention to the fact that no appropriation for Lucy Larcom park had been made this year and it was agreed that this honor would bring in an order at the next meeting.

"The statement was made in this chamber," said Com. Cummings, "that pauper help was employed to keep Lucy Larcom park in shape last summer. I knew that statement was false and I would like to have the public know that it was false."

"Who in this council made that statement?" asked Com. Brown.

"No member of this body, but another orator on the outside," said Mr. Cummings.

Money For Playground  
The mayor then called attention to a reported shortage of money for the continuance of the West Centralville or Greenhalze school playground and recommended that the sum of \$300 be provided. After some discussion, the mayor said he would ascertain from the city auditor if any money was available and report at the next meeting.

City Seized Land  
The mayor read a communication from the engineer's department relative to land taken by the city for the extension of Aberdeen street. The land was taken by the city and has not been paid for. The amount is about \$51 and the matter went over to the next meeting.

The order appropriating \$31,000 for painting and repairing bridges went over for consideration, to the next meeting. Adjourned.

BASEBALL AND  
FIELD SPORTS

## THE SUN SPORTING PAGE

BOXING, GOLF  
AND ATHLETICS

## Live Bits of Sport

We can certainly use those two new pitchers just now. Burroughs' initial appearance in a Lowell uniform proved to be a splendid one. Any pitcher who can pitch a four hit game in his first exhibition must have something.

If Lowell and Lawrence both win or both lose in today's contest, the game at Spaulding park tomorrow will decide the temporary leadership of the league. We will wait to see which team wins the game before going into a discussion on the term "temporary."

Joe Jackson, the slugging right fielder of the Cleveland team, made another record yesterday, when he clouted the ball over the wing of the New York grandstand which extends into right field. This is the longest hit ever seen at the park.

The Boston Journal says that Lynn has three, at least, who will move up to the big show when next season draws nigh. Porter, Harrington, Lavigne and Wilson are probably the men that the author has in mind. Well, if Lynn can sell three of her players we ought to send up five. And it might be hard to decide just who those five will be.

Dowd, Brockton's second sacker, stole three bases yesterday in the Portland-Brockton game. This feat is all the more noteworthy when the fact is taken into consideration that Hayden was doing backstop duty for Portland. Hayden's arm has got no kinks in it.

Larry Gardner's ankle and foot are still surrounded by a plaster cast, and the doctors are not at all certain just when the Red Sox pitcher will be able to take his position at the hot corner again. Gardner's absence in the

Boston infield has lost several games for Luke Stahl thus far.

The Portland team, under the leadership of Hugh Duffy, is a very aggressive aggregation, and the game is never over, no matter what the score may be, until the last man is thrown out. Yesterday was simply a sample of what Portland has done on several occasions this year. With the score 2 to 7 against them in the ninth inning, Duffy's men went out and batted three runs across the plate for a hard earned win. The greatest compliment which can be paid to a ball club and its manager is to say that they are just as dangerous from behind as when the score is all in their favor.

Mike Murphy, the uninvited trainer, has at last succumbed to the disease which has made life a burden to him for the past ten years. Although given up by the most learned physicians in the country on several different occasions, the career of the veteran trainer has come to his aid and he has, time and again, fought off his prophesied death. When he was in the south last winter, stopping at a sanatorium, physicians warned him that if he came back north he would die inside of two months. Mike, however, insisted that the boys at the University of Pennsylvania needed him for the intercollegiate track meet, which was held last Saturday, and refused to listen to their advice. What the grand old athlete coach did for his college track team is still fresh in the minds of the public, for Pennsylvania was not topped upon as a favorite before the meet. It is safe to say that there never was a man intimately connected with athletics and athletes who was so universally loved as was Mike Murphy.

## AMATEUR BASEBALL

The Colburn Stars would like to play the Brookfielders of Colville for their quarter ball. Send challenges through this paper.

The Young Tigers will play any team in the city at 12 cents. Reply to Fred Murphy, 18 Haverhill street. Fred is first string pitcher and says he has an excellent receipt for preserving a good whip and prevention of "glass arm."

The members of the Rock A. C. are a hard lot. They want a game with the Marshall A. C. for a 25 cent ball at the Rock street grounds and they will give the Marshalls a return game.

Some of these managers who are sending in challenges should get typewriters. We have one better for the deciphering of a game. We offered a prize. Two of the contestants who tried for the reward are now in pained cells. This much we can make out of it. "The Young (somethings)" would like to play any 12 year old team in the city. Send all challenges to 29 Butterfield street. If it is, have a heart, come in and put us wise.

Recently the manager of a team known as the Athletics cast slurring remarks about the Riverside Grays, saying that the only baseball ability which the latter had was that of strutting about the streets in new uniforms for the public to gaze on but not to be called in a game. These Athletics said they would like a game with the Grays so as to knock down their swelled heads. We are glad to see the Riverside Grays responded at once and announce that they will be glad to meet (and incidentally administer a sound thrashing to) the Athletics on week from Saturday. They wish the Athletics to reply through this paper stating arrangements, grounds, etc. Of course it is well known that the Athletics will now crawl under cover and not respond when they see their bluff is being called. If they have any courage they will play this game out now that they have gotten themselves into the mess. The Riverside will walk away with them, if the game is played.

## CICOTTE TRIMS RED SOX

Former Boston Heaver

Wins for White Sox

The Red Sox were unable to hit

Cicotte yesterday in the pinches, and

Chicago won the game, 4 to 1. Boston

got only six hits from the Chicagoans' delivery, while the White Sox batters

piled out nine safeties from the offerings

of O'Brien, Redburn and Foster.

Hooper and Yerkes batted in relief in

the third inning after he had been

passed by Cicotte. Both players con-

tributed for two hits apiece. Ray, Fournier

and Schalk played well for Chicago.

Two popular young clergymen, Rev.

Anthony Swencinski, O. M. I., and Rev.

Herbert Bisette, O. M. I., who have

been at the Tewksbury novitiate for

the last seven years, have been as-

signed to the ministry in British Columbia

by the Most Rev. Augustine

Donnelly, superior general of the Oblate

order. They left on the Montreal

express Tuesday evening for Vancouver,

B. C., from which they will be as-

signed to their new field of duty. They

were given a great send-off by the stu-

dents and faculty of the novitiate by

whom they were very highly esteemed.

The young men originally came from

the northwest and are now going back

to their own country after having com-

pleted their studies for the priesthood

in the Oblate order. They were accom-

panied to the depot by Rev. Fr. Mc-

Kenna, superior of the novitiate; Rev.

Fr. Dineen and Rev. Fr. McCay. Both

young clergymen were ordained a year

ago by Cardinal O'Connell but remained

to complete their theological studies.

They have a great many friends in

Lowell who wish them the greatest

success in their new field of labor.

It may be remarked that the Oblate

order has charge of the greater part of

the northwest and its missions are rapidly

spreading all through that terri-

tory.

ENROUTE TO CHICAGO

Young Man Expected to Leave For the

West and He Shipped His Trunk—He

Later Changed His Mind

A well known young man employed

on one of Lavery's delivery wagons is

wondering if his trunk which was

shipped to the west a few days ago will

reach its destination and also how it

will return to him. He is now

checking his trunk for Chicago and

brought the same to the railroad sta-

tion. The value was placed aboard the

train and is now enroute to the great

western city.

When the young man returned to his

home after leaving his trunk at the

station, it appeared that his mother in-

duced him to change his mind and re-

main in Lowell. He hurried back to

the station to learn that his trunk had

been shipped. What is more puzzling

with the young man is the fact that

his last clothes are locked in the trunk

and he does not know when the same

will be returned to him. He is now

negotiating with officials of the rail-

road in Chicago to ship the trunk right

back to Lowell upon its arrival in the

west.

CHANCE SAYS ZEIDER AND BORTON  
HAVE STRENGTHENED THE YANKS

ZEIDER  
BORTON  
PHOTO BY AMERICAN PRESS ASSOCIATION

Manager Frank Chance is highly pleased with the early showing of Zeider and Borton, the two men whom he obtained from Chicago in exchange for Hal Chase. The Yanks' leader says the team has been strengthened by their presence. Chance always liked the work of Zeider, who will not doubt play better ball. Borton can play first base, but Chance says he may use him in the outfield. Zeider hit .245 last year and stole forty-seven bases, ranking fifth behind Milan, Collins, Cobb and Speaker in this respect. Borton is not only a fine first baseman, but he is a big Zeider and Borton, the two men whom he has batted heavily for two years—275 for twenty-seven games last year, 321 for thirty-nine games. "I am satisfied that he will be a tower of strength to us," said Chance recently. "If he can play the outfield I will cover first base permanently; otherwise he will be assigned to Chase's old position. Borton is a big, rangy fellow, a willing, hard worker and just the kind of a player I like."

## THE BOSTON UNIVERSITY

Graduated by Class In-

cluding Judge Quinn

BOSTON, June 5.—After the passing

of nearly 30 years from the time of

concluding their law studies at the

Boston University School of Law,

Judge Joseph P. Quinn of the superior

court, Asa P. French, United States dis-

trict attorney, and Thomas W. Proctor

were yesterday graduated from the uni-

versity, receiving their sheepskins in

company with 278 young men and

women who finished the law course the

past year.

In Class of 1884

Judge Quinn and Mr. Proctor were of

the class of '84 and District Attorney

French of the class of '85. Owing to

technicalities, they were not graduated

at the time of their concluding their

law studies at the school.

The 44th annual commencement of

the university was held yesterday at

Tremont Temple in the presence of

several thousand friends of the graduates.

The trustees and faculty of the uni-

versity headed the procession in which

were the 278 candidates for degrees.

Prof. F. Charles Black was marshal.

The procession was followed by President

Dr. Muriel and Austin B. Fletcher, LL.

D., of New York, who delivered the ad-

dress; the trustees and guests, the fac-

ulties of the various branches of the

university and the candidates.

Honors on Platform

Ex-Gov. John L. Bates, president of

Boston University corporation, and

Bishop John W. Hamilton were seated

at the left and right respectively of

President Muriel of the university, who

presided.

In conferring the degrees upon the

three distinguished lawyers, President

Muriel said that the alumni had ex-

actly asked that the university grant

these men diplomas because of their

distinguished services at the bar. This

faculty of the School of Law and the

University senate also favored the idea

of conferring upon each the degree of

bachelor of law.

The degrees of master of laws from

the law school and doctor of philoso-

phy, one of the highest degrees in the

scholarly world, were conferred on

Harold Perrin, son of Prof. Marshall L.

Perrin, and only 25 years of age.

Other Degrees

Daniel T. O'Connell of Dorchester re-

ceived the degree of doctor of law.

The degrees were awarded as fol-

lows: College of liberal arts, 102;

school of theology, 47; school of law,

22; school of medicine, 12; graduate

school, 27.

Dr. Fletcher addressed the scholars

on the theme "To What End?" He

called on the graduates to give their

talents and mental energies to the

solution of some of the present day

civic problems, such as immigration,

## the relation of labor and capital, di-

vide and other great moral questions.

Social Catastrophism

He said in part:

"We are in the midst of a social

catastrophism such as this country has

never before experienced. A large

proportion of the people has ceased to

reason, and have given way to maudlin

sentiment and hysteria. The demo-

cratic is dangerous. He preaches of

personal liberty, of divine right, the right

of man, oppression of the poor, neces-

sary evils, square deal. Hardly less

dangerous are the people that would

have the children fed, clothed and

educated by the state.

"We all have too much money now.

The conditions of life are too easy. Da-

ngerous immigrants are decreasing in

number, while the undesirable immi-

grants are increasing. They created

and are forever enlarging the slums of

our cities.

"Socialism is every day increasing its

errors. Nothing is more cruel to

honest labor than the labor union."

AIKEN STREET EXTENSION

Discussed at City Hall

This Forenoon

The committee appointed by the mu-

nicipal council to look into the matter

of the proposed extension of Aiken

street, had a conference with the au-

thors in the councilmanic committee

room at city hall this forenoon, while

the council was in session, and the fol-

lowing were present:

Francis W. Quinn, representing J. P.

McCarthy, Daniel J. Hart, Philip La-

mar, Amos Archambault.

The plans of the proposed extension

were exhibited and a discussion was

had as to the probable damage to the

abutters.

Mr. Lamard declared that he would

be contented for damage to his prop
